REAI

Innovation-Driven Entrepreneurial Ecosystems: Acceleration

The metaphor "ecosystem" reflects the tendency in academia to describe the old phenomenon of agglomeration effects of regions (urban, regional, national ecosystems) and industries (agricultural, chemical, manufacturing, media, finance ecosystems), i.e. clusters either of firms (business, entrepreneurial ecosystems) or activities (service, innovation, digital ecosystems) (see Bruns et al. 2017).

Entrepreneurial Ecosystems and Regional Policy: A

Entrepreneurial ecosystems can be industry specific (e.g. pharmaceuticals cluster in Copenhagen, mobile cluster in North Jutland, Denmark) or may have evolved from a single industry to include several industries. They are geographically bounded but not confined to a specific geographical scale (e.g. campus, city, region).

ENTREPRENEURIAL ECOSYSTEMS AND GROWTH-ORIENTED

Internationally, the ecosystem concept is used as a tool by policymakers to promote innovation and entrepreneurship across city-regions. By building a partnership between the research and policy communities in the two countries, the researchers aim to critically examine and further develop the concept of "entrepreneurial and innovation ecosystems" by engaging with policy user communities.

NWBC's entirely new ecosystem model serves as a tool to evaluate regional support of women's entrepreneurship. The convergence of the domains on women-owned ventures, centrally displayed, demonstrates that actors throughout the ecosystem work together to engage, advise, and drive the growth of women entrepreneurs.

Entrepreneurial Ecosystem Model

In this paper, we show how the Regional Entrepreneurship and Development Index (REDI), a measure of the local entrepreneurship ecosystem, can help to identify the inhibitors to local entrepreneurial discovery processes, in a manner which can support Smart Specialization Strategies (S3) policy prioritisation (Foray et al. 2012; McCann and Ortega-Argiles, 2015 and 2016; Varga et al., 2020). Next, we explain the structure and the calculation methodology of the REDI that is a holistic measure of ...

Optimising Entrepreneurial Development Processes for Smart

'This book is the first to span the vast void that has separated two distinct research and policy worlds – entrepreneurial ecosystems and innovation systems. In this thoughtful and insightful book, the authors are able to highlight and articulate both the commonalities as well as the unique features distinguishing entrepreneurial ecosystems and innovation systems.
