Igniting the Sixth Sense

"Igniting the Sixth Sense deals with the magnetic sense that allows birds, whales, bees and many other animals to detect and use magnetic fields in ways that seem impossible for humans. Yet, we possess this same natural ability. What happens if you combine a modern human with an active, magnetic sensory? They display skills and abilities that seem, at time, super-human"--Publisher.

A poet and a man of strong Christian faith meditates on life, death and being an artist after being diagnosed with a rare form of cancer and describes how he dealt with the creeping doubts and the increasing pain. 40,000 first printing.

The monograph series Oxford Studies in Medieval Literature and Culture showcases the plurilingual and multicultural quality of medieval literature and actively seeks to promote research that not only focuses on the array of subjects medievalists now pursue - in literature, theology, and philosophy, in social, political, jurisprudential, and intellectual history, the history of art, and the history of science - but also that combines these subjects productively. It offers innovative studies on topics that may include, but are not limited to, manuscript and book history; languages and literatures of the global Middle Ages; race and the post-colonial; the digital humanities, media and performance; music; medicine; the history of affect and the emotions; the literature and practices of devotion; the theory and history of gender and sexuality, ecocriticism and the environment; theories of aesthetics; medievalism. Meditating about death and the afterlife was one of the most important techniques that Christian societies in medieval and early modern Europe had at their disposal for developing a sense of individual selfhood. Believers who regularly and systematically reflected on the inevitability of death and the certainty of eternal punishment in hell or reward in heaven would acquire an understanding of themselves as a unique persons defined by their moral actions; they would also learn to discipline themselves by feeling remorse for their sins, doing penance, and cultivating a permanent vigilance over their future thoughts and deeds. This book covers a crucial period in the formation and transformation of the technique of meditating on death: from the thirteenth century, when a practice that had mainly been the preserve of a monastic elite began to be more widely disseminated among all segments of Christian society, to the sixteenth, when the Protestant Reformation transformed the technique of spiritual exercise into a bible-based mindfulness that avoided the stigma of works piety. It discusses the textual instructions for meditation as well as the theories and beliefs and doctrines that lay behind them; the sources are Latin and vernacular and enjoyed widespread circulation in Roman Christian and Protestant Europe during the period under consideration.

Winner of the René Wellek Prize Named a Best Book of the Year by The Guardian, The Millions, and The Sydney Morning Herald A profound, original, and accessible book that offers a new secular vision of how we can lead our lives. Ranging from fundamental existential questions to the most pressing social issues of our time, This Life shows why our commitment to freedom and democracy should lead us beyond both religion and capitalism. In this groundbreaking book, the philosopher Martin Hägglund challenges our received notions of faith and freedom. The faith we need to cultivate, he argues, is not a religious faith in eternity but a secular faith devoted to our finite life together. He shows that all spiritual questions of freedom are inseparable from economic and material conditions. What ultimately matters is how we treat one another in this life, and what we do with our time together. Hägglund develops new existential and political principles while transforming our understanding of spiritual life. His critique of religion takes us to the heart of what it means to mourn our loved ones, be committed, and care about a sustainable world. His critique of capitalism demonstrates that we fail to sustain our democratic values because our lives depend on wage labor. In clear and pathbreaking terms, Hägglund explains why capitalism is inimical to our freedom, and why we should instead pursue a novel form of democratic socialism. In developing his vision of an emancipated secular life, Hägglund engages with great philosophers from Aristotle to Hegel and Marx, literary writers from Dante to Proust and Knusaagaard, political economists from Mill to Keynes and Hayek, and religious thinkers from Augustine to Kierkegaard and Martin Luther King, Jr. This Life gives us new access to our past—for the sake of a different future.
