Two sisters—Miranda, the older, responsible one, always her younger sister's protector; Lucia, the headstrong, unpredictable one, whose impulses are huge and, often, life changing. When their mother dies and Lucia starts hearing voices, it is Miranda who must find a way to reach her sister. But Lucia impetuously plows ahead, marrying a bighearted, older man only to leave him, suddenly, to have a baby with a young Latino immigrant. She moves her new family from the States to Ecuador and back again, but the

bitter constant is that she is, in fact, mentally ill. Lucia lives life on a grand scale, until, inevitably, she crashes to earth. Miranda leaves her own self-contained life in Switzerland to rescue her sister-but only Lucia can decide whether she wants to be saved. The bonds of sisterly devotion stretch across oceans-but what does it take to break them? Told in alternating points of view, *Everything Here Is Beautiful* is, at its heart, the story of a young woman's quest to find fulfillment and a life unconstrained by her illness. But it's also an unforgettable, gut-wrenching story of the sacrifices we make to truly love someone-and when loyalty to one's self must prevail over all.

civic participation in natural resource policymaking. Journalists know how hard it is to report on government management of oil, gas, and other natural resource revenues. Governments and industry are seldom forthcoming. And reporters themselves usually lack the background in economics, engineering, geology, and corporate finance helpful to understanding the energy industry and the effects of resource wealth. This book attempts to redress the balance with practical information in easy to understand language. Chapters include Understanding the Resource Curse, A Primer on Oil, Oil Companies and the International Oil Market, the ABCs of Petroleum Contracts, and the Environmental, Social, and Human Rights Impacts of Oil Development. Tip sheets inform reporters about stories to pursue and questions to ask.

Grabbing the low-hanging fruit is no longer acceptable. ZICO Coconut Water founder Mark Rampolla argues that when you choose to reach higher, you can build an incredible business, be profitable, and maybe even change the world. In 2004, Mark Rampolla was successful by most standards. There was just one problem: He wasn't inspired in his job and believed he had something more to contribute to the world. When he asked himself, "What do I have to offer that will improve the world?" Rampolla realized that his big idea was hanging right overhead. From his time living in Central America, he and his family came to love drinking coconut water, just like the locals. But no one was really selling coconut water in the United States. So Rampolla chased a very ambitious goal: introducing coconut water to the American beverage market dominated by a few big players. He wasn't just starting a business; he was creating a whole new industry. ZICO Coconut Water brought a healthy beverage alternative to American consumers while also helping developing-world growers and suppliers profit from this resource. It was a win-win-win-good for Rampolla, his customers, and the world. So good, in fact, that in 2013 the Coca-Cola Company purchased ZICO and is scaling the brand around the globe. Rampolla wrote High-
