Power: 4D56 vs. 4M40 While both vans had diesel engines, the Star Wagons had a 2.5-liter non-intercooled 4D56 turbodiesel engine making something around 86 hp and 120 lbs/ft of torque. The Space Gear employs the 2.8-liter intercooled 4M40 turbodiesel making 140 hp and 232 lbs/ft of torque—quite a bit more power.

Krause Publications' Standard Catalog series is available by specific marque, in individual volumes or a set. Each book contains in-depth profiles of specific makes by model, factory photos, and up-to-date vehicle pricing. The I-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flamming values each model according to the popular 1-6 grading system invented by Old Cars magazine.

This is a maintenance and repair manual for the DIY mechanic. The book covers the Mitsubishi Pajero, 1997-2009 models.

This paper describes economic developments in Grenada during the 1990s. The weak growth performance since 1990 reflected largely a continuous contraction in agricultural output, which declined each year from 1989 to 1993. The construction industry experienced a major contraction in 1992 owing to the sharp fall in public investment. In 1993, output declined in the mining and quarrying, construction, and manufacturing sectors as well as in agriculture. In contrast, the hotel and restaurant sector has exhibited strong growth since the late 1980s, with real value added growing by 13.8 percent, on average, each year since 1989.

A total of 380 color and duotone plates provide quite an extraordinary and intimate chronicle of the band's path from local unknowns to legendary superstars and the photographer's own development as an artist, documenting the public and private face of the band, the long-standing friendship between Bono, The Edge, Adam Clayton, Larry Mullen and Corbijn, the ways in which they provided mutual inspiration, while shedding one image for another in a process of ongoing self-transformation. The oldest photo dates back to 1982 and was taken in New Orleans; the more recent one was spot in Lisbon in 2004 for "How To Dismantle An Atomic Bomb", the new U2 album. In this way, their shared experience itself becomes a part of photo-history. Corbijn has added handwritten notes as picture captions, thus also ensuring the book is a highly readable document of his personal memories, giving it the feel of a private album. By way of introduction, the book features Anton Corbijn and Bono interviewing each other, humorously reviewing their joint history and offering many a minor anecdote on their long-standing friendship and collaboration.

The exciting sequel to Coolibah Creek. Will Charlotte be driven away from her spiritual home forever?
