Creative conflict, along with harmony and synchronicity in the workplace, are issues that are commonly avoided, simply because they're misunderstood, or because no one knew what to say. MANAGING CONFLICT AND WORKPLACE RELATIONSHIPS, Second Edition, uses an approach that involves far more than dispute resolution or figuring out how limited resources can be distributed equitably among people who think they all deserve more. This module shows readers how to manage their own emotions, as well as those of others. MANAGING CONFLICT AND WORKPLACE RELATIONSHIPS, Second Edition, helps readers understand conflict and clearly illustrates how to deal with it. This book can be bundled or customized with any of the O'Rourke Modules or with any of our best-selling Business Communication books. Cases and solutions will be posted online. The transition from classroom lectures and practice preaching into the real world of ministry is not always smooth. The anticipation of putting into practice the ideas arising from one ' s education is dampened by the emergence of opposition. Experience leads the youthful pastor to recognize the need to balance zeal, knowledge, and enthusiasm with improved interpersonal skills.

Focusing on creating community partnerships via collaboration to support the growth and development of children and families, this guide is intended to enhance the knowledge and skills Head Start staff need to be full collaborative partners in community efforts to help families develop, nurture their children, and experience success. Following an introductory section, four modules are presented. Each module details expected outcomes, key concepts, background information, learning activities, and next steps. Handouts are included for each module. Module One, "What is Collaboration?," distinguishes collaboration from the many other ways people work together. Module Two, "Elements of Success," describes elements that contribute to successful collaboration, along with strategies for decision-making and planning effective meetings. Module Three, "Challenges of Collaboration," examines typical collaborative challenges and potential sources of conflict among partners. Module Four, "Practicing the Collaborative Process," presents activities that allow participants to become an active player on a planning team and introduces evaluation and self-assessment tools. The final sections of the guide contain information on continuing professional development and resources. (SD)

A clear, systematic road map to effective campus leadershipdevelopment Building Academic Leadership Capacity gives institutionsthe knowledge they need to invest in the next generation ofacademic leaders. With a clear, generalizable, systematic approach,this book provides insight into the elements of successful academicleadership and the training that makes it effective. Readers willexplore original research that facilitates systematic, continuousprogram development, augmented by the authors' own insight drawnfrom experience establishing such programs. Numerous examples ofcurrent campus programs illustrate the concepts in action, andreflection questions lead readers to assess how they can applythese concepts to their own programs. The academic leader is the least studied and most misunderstoodmanagement position in America. Demands for accountability and thecomplexities of higher education leadership are increasing, andinstitutions need ways to shape leaders at the department chair,dean, and executive levels of all functions and responsibilities.This book provides a road map to an effective development program.whether the goal is to revamp an existing program or build one fromthe ground up. Readers will learn to: Develop campus leadership programs in a more systematicmanner Examine approaches that have been proven effective at otherinstitutions Consider how these approaches could be applied to yourinstitution Give leaders the skills they need to overcome anychallenge The field of higher education offers limited opportunity todevelop leaders, so institutions must invest in and grow campusleaders themselves. All development programs are not created equal,so it's important to have the most effective methods in place fromday one. For the institution seeking a better way to invest in thenext generation of campus leaders, Building Academic LeadershipCapacity is a valuable resource.

A commitment to enhancing and developing leadership skills contributes to positioning Head Start as a central community institution for low-income children and their families. This guide, comprised of three training modules, is intended to help Head Start leaders refine and expand their skills and knowledge through a variety of training activities. Module 1, "Understanding Leadership," helps participants understand the meaning of effective Head Start leadership, allows them to explore how personal and organizational values are related to effective leadership, and introduces the MOVER model of the leadership behaviors of mentoring, engaging in outreach, committing to a shared vision, empowering others, and acting as a role model. Module 2, "Influencing Organizational Culture," focuses on techniques that extend leadership behaviors throughout the organization and demonstrates the impact of these behaviors on the organizational culture. Module 3, "Positioning Head Start for the Future," encourages participants to recognize the role that the program plays in the community, helps them to develop skills and behaviors for building or strengthening partnerships, and allows participants to enhance their abilities to envision the future and to communicate their visions within the context of the MOVER behaviors. Each module includes outcomes that are based on the guide outcomes, key concepts, and background information. The leadership journal and professional development plan are intended to help participants reflect on their experiences and develop leadership action plans. The final section of the guide is an annotated list of 50 print, organizational, and electronic resources. (Author/KB)

This book addresses an important topic - Conflict, mediation and dialogue. Conflicts are a part of life. Although many people assume conflicts are negative and, therefore, should be avoided, conflict is truly neutral. The engagement in conflict is what can be constructive or destructive. There are many positive outcomes experienced when a conflict is well managed, hence the critical role of this book. For instance, most change is driven by some level of conflict. You must learn, grow and develop effective conflict management skills as a way to manage change. Thus, the conflicts we deal with in our personal lives and in the workplace are essential to our development and our organizations' healthy development. However, if managed poorly, some conflicts can escalate to the point that they can destroy individuals or organizations. As illustrated in this book, the key to managing conflicts is to understand conflicts; expect conflicts, and manage conflicts before they escalate into destructive or costly loss of personnel, diminished climate or lead to lawsuits. The book provides one of the growing and recognized methods of dealing with conflicts - mediation and dialogue. The contents of this book reflect areas of importance addressed in mediation training: alternative dispute resolution practices, conflict management intervention options, models of thinking about conflict, the mediation format, and the skill set needed by a strong conflict management and mediator. Readers are challenged to reflect upon their biases and beliefs that may negatively impact the mediation process.

Contains papers and discussions of the third International Conference of SEBDA in 2010 at Keble College, Oxford, UK. This title describes and critically examines strategies and interventions in meeting the educational and well being needs of the children and young people.

Conflict management is an overlooked area in leadership development. Mediation as an intervention method to use in conflict management can be productive for building leadership capacity and organizational development in higher education. Adults average five conflicts per day and people in titled leadership spend over two-thirds of their time engaged in managing conflict. This book offers conflict management strategies, models, and processes to support college and university personnel in recognizing and managing conflicts and how to build skill sets that can enhance effective communication and address issues strategically.
