Drive-in movie theaters and the horror films shown at them during the 1950s, 60s, and early 70s may be somewhat outdated, but they continue to enthrall movie buffs today. More than just fodder for the satirical cannons of Joe Bob Briggs and Mystery Science Theatre 3000, they appeal to knowledgeable fans and film scholars who understand their influence on American popular culture. This book is a collection of eighteen essays by various scholars on the classic drive-in horror film experience. Those in Section One emphasize the roles of the drive-in theater in the United States--and its cultural cousin, Australia. Section Two examines how horror operated at the

Section Four explores gender issues and sexuality, two of the most common and most important subjects of horror film analysis. Section Five covers drive-in culture via *Hush...Hush*, *Sweet Charlotte*, *2000 Maniacs*, and the films of Mario Bava. Section Six investigates a variety of issues, such as the drive-in horror film's embrace of DNA, the use of cinematic form to create a non-Hollywood look in *Wizard of Gore*, and the many different prints and running times of *I Drink Your Blood*.

Movies considered range from the slasher film *Scream* to bromances and beta male comedies such as *I Love You, Man* to dramas such as *Donnie Darko* and *25th Hour* to Rob Zombie's remake of the horror film *Halloween*. Greven also traces the disturbing connections between torture porn found in such films as *Hostel* and gay male Internet pornography.

"Abingdon Pillars of Theology" is a series for the college and seminary classroom designed to help students grasp the basic and necessary facts, influence, and significance of major theologians. Studying theology can be like maneuvering through fog. Because the concepts can be very dense and ill-defined, students look for havens of clarity. Written by major scholars, these books will

outline the context, methodology, organizing principles, method, primary contributions, and major writings of people who have shaped theology as we know it today. For many, all theology subsequent to Augustine is a footnote. He is influential, even today, because of his doctrinal formulations, but even more important, Augustine is a stimulating thinker and constant inquirer. Starting with his philosophical interest in Platonism, which set the framework for his thinking, Eugene TeSelle examines the major themes of Augustine's thought following a more or less chronological order including human fulfillment, evil, creation, the human self, the church and its doctrines, the course of human history, and the relation of Christianity to political matters. Even those who think he was wrong in his conclusions can respect Augustine's willingness to confront problems and think through

Baltimore is known for her share of peculiar oddity, but beyond the bouffant hairdos of her trademark Hons and the quirky neighborhood bars is a world even darker and stranger: A dentist learns that the Tooth Fairy is not all goodness and light, and she's not someone to be messed with. A dear friend of Mr. Poe unites forces with a local witch to save another writer from a dark fate. The monsters in the closet are about to be unleashed upon the world, and there's only one small child in their way. A goblin carnival under the Jones Falls Expressway proves to be both an undoing and a salvation for one young girl. All this and more waits within the bounds of the charmed city of Baltimore. Keep your eyes open and your wits about you, because you never know which shadow is merely a shadow and which one is something a little more dangerous that slinks away when you're not looking.

Seminar paper from the year 2006 in the subject English Language and Literature Studies - Literature, grade: 2,0, University of Freiburg, course: Monsters, Monstrosoty and Alterity In Fiction and Film, 4 entries in the bibliography, language: English, abstract: The commercial slogan of the biggest power authority in Monstropolis sounds like a common saying that could also be heard in our TV and Radio programmes. And this slogan is not the only odd similarity between our human world and the movie Monsters, Inc.(2001). The movie, one of the latest works developed by Pixar Animation Studios in cooperation with Walt Disney Pictures, is an animated movie for children that sets in a parallel universe, namely a world of monsters: Monstropolis. While this movie was not only extremely successful in the Box office and nominated for an

Academy Award in 2002 for Best Animated Feature, there is a lot more to discover beyond its surface. Considering the fact that “Monsters, Inc.” is a movie made for young people, especially for little children (rated TV-G in the US) the film needs to meet some expectations. It is clear that this movie is supposed to be funny, entertaining and suitable for children. At the same time it should be fun for the whole family, not only for the kids, because the parents form the audience that pays for the movie. Additionally, movies for kids are generally expected to fulfil a pedagogical task, as most of Disney’s movies do. There is always the plea for tolerance, equality and kindness in Disney-films, like in *Mulan*, *Tarzan* or *The Beauty and the Beast*. The story in *Monsters, Inc.* however, is set on a much more complex basis than the movies that have been produced by Disney so far. The image of the monster behind closet doors and

under the beds of little children - usually rather nightmarish material - is used to create a whole world beyond the scary creatures. This term paper serves to provide a closer look at how the monster is presented in the movie and how this typology can be compared to the common image or stereotype of a monster as well as providing a re-framing of the concept on the basis of monster theory in literature. There will also be a short discussion of how the characters in the movie are adopting human qualities while creating an everyday-life and whether this device is only applied in entertaining the audience. In a final step, there will be an examination on how this fact influences the story in an inverse manner and thus creates a comical and ironic view on the common concepts of a monster.
