The innovation economy sets new standards for global business and requires efficient innovation management to plan, execute and evaluate innovation activities, establish innovation capability and coordinate resources and capacities for innovation on an intra- and inter-organizational level. Communication has become a critical factor underpinning successful innovation. As a new communication field, innovation communication facilitates the successful launches of new products and services, the establishment of stakeholder relationships, and the strengthening of corporate reputation in the long-run. Consequently, firms today need to develop a strong portfolio of communication tools as an integral part of their strategic innovation management activities. This new edition mainly concentrates on emerging approaches and methods for integrating communication as part of strategic innovation management. A key theme is the provision of an integrated perspective to bridge the gap between innovation management and communication management at both strategic and operational levels. This book makes an important contribution to this evolving academic domain by providing multiple perspectives on the latest research on innovation communication and strategic open innovation. It also provides guidance for managers seeking to understand the diverse ways by which they can leverage communication to support successful innovation.

The bestselling author of the acclaimed *House of Cards* and *The Last Tycoons* turns his spotlight on to

Goldman Sachs and the controversy behind its success. From the outside, Goldman Sachs is a perfect company. The Goldman PR machine loudly declares it to be smarter, more ethical, and more profitable than all of its competitors. Behind closed doors, however, the firm constantly straddles the line between conflict of interest and legitimate deal making, wields significant influence over all levels of government, and upholds a culture of power struggles and toxic paranoia. And its clever bet against the mortgage market in 2007—unknown to its clients—may have made the financial ruin of the Great Recession worse. Money and Power reveals the internal schemes that have guided the bank from its founding through its remarkable windfall during the 2008 financial crisis. Through extensive research and interviews with the inside players, including current CEO Lloyd Blankfein, William Cohan constructs a nuanced, timely portrait of Goldman Sachs, the company that was too big—and too ruthless—to fail.

Operations Management (OM) is a multi-faceted blend of myriad academic and practical disciplines – from engineering and economics via mathematics and marketing, to systems and psychology. To capture the state of the art, the book reviews contemporary and classic scholarship in one of the oldest business and management disciplines. To offer the reader a thought-provoking point of entry into the selected sources, the book curates its content as an imaginary exhibit, each chapter a thematic OM ‘ gallery ’ (process; planning and control; people; strategy and measurement; technology) introduced by a description of some extraordinary artefacts, paintings, sculptures and

architecture. The content has been curated around three principles intended to benefit the casual reader and both new and established OM scholars. First, it incorporates works that build on, or help to distinguish, fundamental tenets from more transitory fads. Second, the text makes significant efforts to try and balance the gravitational pull of the factory, (even though this may not offer an accurate representation of the majority of the field) and third, to try to keep managerial rather than technical/ analytical concerns to the fore. This concise book provides a useful overview of current and classic OM research. Written by a leading authority, it is intended to be a valuable and engaging resource for both students and scholars of business.

This book addresses the pharmacology and therapeutic application of drugs used to treat heart diseases and hypertension. Additions and updates to the sixth edition include six new chapters on current controversies in cardiac drug therapy such as the beta blocker issue many cardiologists are presently grappling with. The book provides practical advice on how to manage cardiac diseases and addresses the choice of one particular cardiac agent vs. another.

Catalog of Catalogs documents nearly 2,300 temporary exhibition catalogs, 1876-2018, that include objects of Judaica. It provides highly-detailed indices of these publications' subjects, exhibited objects and geographical foci.

Hebrew manuscripts are considered to be invaluable

documents and artefacts of Jewish culture and history. Research on Hebrew manuscript culture is progressing rapidly and therefore its topics, methods and questions need to be enunciated and reflected upon. The case studies assembled in this volume explore various fields of research on Hebrew manuscripts. They show paradigmatically the current developments concerning codicology and palaeography, book forms like the scroll and codex, scribes and their writing material, patrons, collectors and censors, manuscript and book collections, illuminations and fragments, and, last but not least, new methods of material analysis applied to manuscripts. The principal focus of this volume is the material and intellectual history of Hebrew book cultures from antiquity to the Middle Ages and Early Modern Period, its intention being to heighten and sharpen the reader's understanding of Jewish social and cultural history in general.

Jewish customs and traditions about death, burial and mourning are numerous, diverse and intriguing. They are considered by many to have a respectable pedigree that goes back to the earliest rabbinic period. In order to examine the accurate historical origins of many of them, an international conference was held at Tel Aviv University in 2010 and experts dealt with many aspects of the topic. This volume includes most of the papers given then, as well as a few added later. What emerges are a wealth of fresh material and perspectives, as well as the realization that the high Middle Ages saw a set of exceptional innovations, some of which later became central to traditional Judaism while others were gradually abandoned. Were these innovations influenced by Christian practice? Which prayers and

poems reflect these innovations? What do the sources tell us about changing attitudes to death and life-after death? Are tombstones an important guide to historical developments? Answers to these questions are to be found in this unusual, illuminating and readable collection of essays that have been well documented, carefully edited and well indexed.

A sweeping chronicle of Jewish life in the Tar Heel State from colonial times to the present, this beautifully illustrated volume incorporates oral histories, original historical documents, and profiles of fascinating individuals. The first comprehensive social history of its kind, *Down Home* demonstrates that the story of North Carolina Jews is attuned to the national story of immigrant acculturation but has a southern twist. Keeping in mind the larger southern, American, and Jewish contexts, Leonard Rogoff considers how the North Carolina Jewish experience differs from that of Jews in other southern states. He explores how Jews very often settled in North Carolina's small towns, rather than in its large cities, and he documents the reach and vitality of Jewish North Carolinians' participation in building the New South and the Sunbelt. Many North Carolina Jews were among those at the forefront of a changing South, Rogoff argues, and their experiences challenge stereotypes of a society that was agrarian and Protestant. More than 125 historic and contemporary photographs complement Rogoff's engaging epic, providing a visual panorama of Jewish social, cultural, economic, and religious life in North Carolina. This volume is a treasure to share and to

keep. Published in association with the Jewish Heritage Foundation of North Carolina, Down Home is part of a larger documentary project of the same name that will include a film and a traveling museum exhibition, to be launched in June 2010.
