Marketing and Managing Tourism
Destinations is a comprehensive and
integrated introductory textbook covering
both destination marketing and destination
management in one volume. It focuses on
how destination management is planned,
implemented and evaluated as well as the
management and operations of destination
management organizations (DMOs), how
they conduct business, major

opportunities, challenges and issues they face to compete for the global leisure and business travel markets. This second edition has been updated to include:

- A new chapter on visitor management that includes a section on crisis and disaster management
- New material on destination leadership and coordination
- New and revised content on digital marketing
- New and updated international case examples throughout to show the practical realities and approaches to managing different destinations around the world. It is illustrated in full colour and packed with features to encourage reflection on main themes, spur critical thinking and show theory in practice.

Written by an author with many years of industry practice, university teaching and professional training experience, this book is the essential guide to the subject for tourism, hospitality and events students

and industry practitioners alike.

"Extraordinary. . . . Berger is a hero of biology who deserves the highest honors that science can bestow."—Tim Flannery, New York Review of Books

On the Tibetan Plateau, there are wild yaks with blood cells thinner than those of horses—by half, enabling the endangered yaks to survive at 40 below zero and in the lowest oxygen levels of the mountaintops. But climate change is causing the snow patterns here to shift, and with the snows, the entire ecosystem. Food and water are vaporizing in this warming environment, and these beasts of ice and thin air are extraordinarily ill-equipped for the change. A journey into some of the most forbidding landscapes on earth, Joel Berger's *Extreme Conservation* is an eye-opening, steely look at what it takes for animals like these to live at the edges of

Get Free National Geographic Horses 2018

existence. But more than this, it is a revealing exploration of how climate change and people are affecting even the most far-flung niches of our planet. Berger's quest to understand these creatures' struggles takes him to some of the most remote corners and peaks of the globe: across Arctic tundra and the frozen Chukchi Sea to study muskoxen, into the Bhutanese Himalayas to follow the rarely sighted takin, and through the Gobi Desert to track the proboscis-swinging saiga. Known as much for his rigorous, scientific methods of developing solutions to conservation challenges as for his penchant for donning moose and polar bear costumes to understand the mindsets of his subjects more closely, Berger is a guide par excellence. He is a scientist and storyteller who has made his life working with desert nomads, in zones that typically require Sherpas and oxygen canisters.

Recounting animals as charismatic as their landscapes are extreme, Berger's unforgettable tale carries us with humor and expertise to the ends of the earth and back. But as his adventures show, the more adapted a species has become to its particular ecological niche, the more devastating climate change can be. Life at the extremes is more challenging than ever, and the need for action, for solutions, has never been greater.

This lush book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals—especially those that are endangered. His powerful message, conveyed with humor, compassion, and art— to know these animals is to save them. Sartore intends to photograph every animal in captivity in

the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits- from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the eloquent prose of veteran wildlife writer Douglas Chadwick, this book presents a thought-provoking argument for saving all the species of our planet.

"A can't-put-it-down modern Western."

Get Free National Geographic Horses 2018

¶ Kirk Siegler, NPR Longlisted for the PEN/ESPN Award for Literary Sports Writing *The Last Cowboys* is Pulitzer Prize-winning reporter John Branch's epic tale of one American family struggling to hold on to the fading vestiges of the Old West. For generations, the Wrights of southern Utah have raised cattle and world-champion saddle-bronc riders—many call them the most successful rodeo family in history. Now they find themselves fighting to save their land and livelihood as the West is transformed by urbanization, battered by drought, and rearranged by public-land disputes. Could rodeo, of all things, be the answer? Written with great lyricism and filled with vivid scenes of heartache and broken bones, *The Last Cowboys* is a powerful testament to the grit and integrity that fuel the American Dream.

"Profiles of 60 parks--from battlefields to national seashores--administered by the National Park Service, highlighting their diverse appeal and available outdoor activities. A brief glimpse is given of 29 additional parks, including the newly created Indiana Sand Dunes."

Grand Prize Winner, Banff Mountain Festival Book Competition
The relationship between man and horse on the Eurasian steppe gave rise to a succession of rich nomadic cultures. Among them were the Mongols of the thirteenth century — a small tribe, which, under the charismatic leadership of Genghis Khan, created the largest contiguous land empire in history. Inspired by the extraordinary life nomads lead, Tim Cope embarked on a journey that hadn't been successfully completed since those times: to travel on horseback across the entire length of the

Get Free National Geographic Horses 2018

Eurasian steppe, from Karakorum, the ancient capital of Mongolia, through Kazakhstan, Russia, Crimea and the Ukraine to the Danube River in Hungary. From horse-riding novice to spending months in the saddle, he learnt to fend off wolves and would-be horse-thieves, and grapple with the haunting extremes of the steppe as he crossed sub-zero plateaux, the scorching deserts of Kazakhstan and the high-mountain passes of the Carpathians. As he travelled he formed a close bond with his horses and especially his dog Tigon, and encountered essential hospitality – the linchpin of human survival on the steppe – from those he met along the way. Cope bears witness to how the traditional ways hang in the balance in the post-Soviet world – an era that has brought new-found freedom, but also the perils of corruption and alcoholism, and left a world bereft of both the Communist
