An aficionado of photography or
someone with an interest in
National Geographic Magazine
would probably question the
decision to publish a book with
many iconic photos in such a small
format. If price was a constraint, a
soft-back could have been used
and that would permit a

proportionately larger format whilst maintaining the cover price.

Through the Lens is a conucopia of National geographic's best photographs created since 1890 when the Society first started commissioning photographers to go out into the world and bring images back to its readership.

Many of the 250 photographs have been previously published in the magazine but a great number of them are images that did not make the final edit but have great merit on their own.
