The STABLE Program is a neonatal education program that focuses on the post-resuscitation/pre-transport stabilization care of sick newborns. This learner manual serves as a student handbook for either self-study or instructor-led presentations. It includes more than 220 pages, illustrated in full color.

Introductory section in the beginning of the manual provides detailed background information about the S.T.A.B.L.E. Program, testing, course renewal, and instructor classifications and qualifications. Case vignettes introduce each module and several case studies are provided for discussion. S.T.A.B.L.E. stands for the 6 assessment parameters covered in the program: Sugar, Temperature, Airway, Blood pressure, Lab work, and Emotional support for the family.

The gold-standard guide from the AAP and ACOG -- newly updated and more valuable than ever! Significantly revised and updated, the new 8th edition of this bestselling manual provides the latest recommendations on quality care of pregnant women, their fetuses, and their newborn infants. Jointly developed by the American Academy of Pediatrics (AAP) and American College of Obstetricians and Gynecologists (ACOG), this unique resource addresses the full spectrum of perinatal medicine from both the obstetric and pediatric standpoints. New in the 8th edition: New section on suggested levels of maternal care from birth centers to Level IV institutions New sections on screening for preterm delivery risk added to chapter on antepartum care New topics covered include the timing of cord clamping, the need (or not) for bedrest, and updates in hypertension Guidance regarding postpartum contraception recommendations has been expanded New section on mosquito-borne illnesses (including Zika) New section on infections with high-risk infection control issues Updated recommendations on neonatal resuscitation, screening and management of hyperbilirubinemia, and neonatal drug withdrawal.

Report of the National Reading Panel : hearing before a subcommittee of the Committee on Appropriations, United States Senate; One Hundred Sixth Congress, second session; special hearing April 13, 2000; Washington, DC.

This valuable review book provides a thorough framework for the basic principles of neonatology in a clear and user-friendly style. The detailed yet focused outline format makes it the perfect book for those in training in neonatology and those studying for the Neonatology Boards, as well as a useful general reference for professionals in the field. The first comprehensive guide for the neonatal/perinatal board exam Provides a thorough framework for the basic principles of neonatology The outline format is supplemented with tables, lists, and illustrations for easy study and recall

This fourth edition has been revised to include two new chapters important to ophthalmic assistants - refractive surgery concepts and procedures, practice management and coding.

Provides methods for teaching students in middle school with reading problems using lessons, strategies, and foundational knowledge.

Written as a Top Secret US Army procedural manual and released under the Freedom of Information act this manual describes the step-by-step process recommended to control and contain the minds of the enemy and the general public alike. Within these 180+ pages you will read in complete detailed the Mission of PSYOP as well as PSYOP Roles, Policies and Strategies and Core Tasks. Also included are the logistics and communication procedures used to insure the "right" people get the "right" information.
