A widower for two years, Billy Wilson goes on holiday with his son and daughter-in-law. While still missing his wife, Dolly, Billy feels twinges of envy and regret as he contrasts their earlier life together with the permissive and lavish world he sees around him on the French Riviera. If only he'd been born forty years later... When he meets an attractive younger woman, Jean, Billy faces a dilemma: for him to enjoy the sexual freedom of later generations may not be the simple choice he imagined. The novel is about making choices, Mr Wilson finds that there are some fundamental choices which may always lead to some lingering regret. He also discovers more about himself and the values he has lived his life by. Mr Wilson's Woman is an entertaining read; while curious to discover what Billy will do, the reader is prompted to ask: what would I have done?

From the Indian Mutiny to the London Blitz, offering a 'nice cup of tea' has been a stock British response to a crisis. But tea itself has a dramatic, and often violent, history. That history is inextricably interwoven with the story of Scotland. Scots were overwhelmingly responsible for the introduction and development of the UK's national drink, and were the foremost pioneers in the development of tea as an international commodity. This book reveals how Darjeeling, Assam, Ceylon and Africa all owe their thriving tea industries to pioneering work by Scottish adventurers and entrepreneurs. It's a dramatic tale. Many of these men jeopardised their lives to lay the foundation of the tea industry. Many Scots made fortunes – but it is a story with a dark side in which racism, the exploitation of native peoples and environmental devastation was the price paid for 'a nice cup of tea'. Les Wilson brings the story right up to date, with a look at the recent development of tea plantations in Scottish hills and glens.
