The Oxford Handbook of Comparative Politics

This article emphasizes that the possible causes of these issues may include events, institutions, and policies. It also tries to determine if the science of comparative politics exists, by identifying the problem, the kinds of data, and the potential biases. Several historical studies are also provided. Keywords: causal inferences, issues, science, problem, kinds of data, potential bias, historical studies.

Politics

frames for addressing these challenges by questioning the canonical (that is, Euro-American) categories that have historically shaped inquiry in political theory and other disciplines. It does this by analyzing normative claims, discursive structures, and formations of power in and from all parts of the world. By looking to alternative bodies of thought and experience, as well as the terms we might use to critically examine them, comparative political theory encourages self-reflexivity about the premises of normative ideas and articulates new possibilities for political theory and practice. The Oxford Handbook of Comparative Political Theory provides an entry point into this burgeoning field by both synthesizing and challenging the terms which motivate it. Over the course of five thematic sections and thirty-three chapters, this volume surveys the field and

Acces PDF Oxford Handbook Of Comparative

archives of comparative political theory, bringing the many approaches to the field into conversation for the first time.

Sections address geographic location as a subject of political theorizing; how the past becomes a key site for staking political claims; the politics of translation and appropriation; the justification of political authority; and questions of disciplinary commitment and rules of knowledge. Ultimately, the handbook demonstrates how mainstream political theory can and must be enriched through attention to genuinely global, rather than parochially Euro-American, contributions to political thinking.

Assembles the world's leading scholars on public opinion and political behaviour to describe the state-of-the-art research on the beliefs, values and behaviours of contemporary politics.

The study of political institutions is among the founding pillars of political science.

With the rise of the 'new institutionalism', the study of institutions has returned to its place in the sun. This volume provides a comprehensive survey of where we are in the study of political institutions, covering both the traditional concerns of political science with constitutions, federalism and bureaucracy and more recent interest in theory and the constructed nature of institutions. The Oxford Handbook of Political Institutions draws together a galaxy of distinguished contributors drawn from leading universities across the world. Authoritative reviews of the literature and assessments of future research directions will help to set the research agenda for the next decade.

The study of law and politics is one of the

Acces PDF Oxford Handbook Of Comparative

Politics foundation stones of the discipline of political science, and it has been one of the most productive areas of cross-fertilization between the various subfields of political science and between political science and other cognate disciplines. This Handbook provides a comprehensive survey of the field of law and politics in all its diversity, ranging from such traditional subjects as theories of jurisprudence, constitutionalism, judicial politics and law-and-society to such re-emerging subjects as comparative judicial politics, international law, and democratization. The Oxford Handbook of Law and Politics gathers together leading scholars in the field to assess key literatures shaping the discipline today and to help set the direction of research in the decade ahead.

Drawing on the rich resources of the ten-volume series of The Oxford Handbooks

of Political Science, this one-volume distillation provides a comprehensive overview of all the main branches of contemporary political science: political theory; political institutions; political behavior; comparative politics; international relations; political economy; law and politics; public policy; contextual political analysis; and political methodology. Sixty-seven of the top political scientists worldwide survey recent developments in those fields and provide penetrating introductions to exciting new fields of study. Following in the footsteps of the New Handbook of Political Science edited by Robert Goodin and Hans-Dieter Klingemann a decade before, this Oxford Handbook will become an indispensable guide to the scope and methods of political science as a whole. It will serve as the reference book of record for political scientists and for those

following their work for years to come.

A systematic and wide-ranging survey of the scholarship on regionalism, regionalisation, and regional governance. Unpacking the major debates, leading authors of the field synthesise the state of the art, provide a guide to the comparative study of regionalism, and identify future avenues of research.

Historical institutionalism has deep roots in Political Science and related fields, and crystalized into a distinct research tradition during the 'new institutionalisms' debate that began in the late 1980s. It has since established strong footholds in four large subfields of Political Science: comparative, American, European, and international politics. The present volume is the first to take stock of the tradition's contributions across multiple areas of

Acces PDF Oxford Handbook Of Comparative

Politics study, and includes chapters by many of its most prominent practitioners. As the world again grapples with how to understand the short- and long-term consequences of economic crises, revolutions, and new patterns of governance, historical institutionalism is poised to offer valuable insights into how past events and decisions will shape political trajectories at local, national, and international levels.

The Oxford Handbook of Spanish Politics provides a comprehensive and comparative overview of the Spanish political system through the lens of political science. It aims to move away from a complacent analysis of Spanish democracy and provide a nuanced view of some of its strengths and challenges. The Handbook introduces Spanish politics to an international audience of scholars and practitioners. It is structured around six

Acces PDF Oxford Handbook Of Comparative

sections that cover Spain's political history, institutional changes, elections, civil society, policy-making, and foreign affairs. The volume brings together a distinguished group of 47 internationally renowned scholars who study Spain in its own right, or as a case among others in a comparative perspective. The contributors provide expert accounts of contemporary Spain, making the Oxford Handbook of Spanish Politics an invaluable resource for anyone interested in Spanish politics and government since the country's transition to democracy.
