The first such literal reference that I've come across is in the writings of John McLeod, who was surgeon of His Majesty's Ship Alceste. Local television reporter Sam Stevens is consumed by his failing marriage and, more than that, by the psychological harm his wife is doing to their ten-year-old son. As Sam covers a once-in-a-lifetime story—one that has turned Webster County into bedlam but is at last providing Sam with an opportunity for media stardom—he suddenly sees an even better chance: to solve his personal problems forever. But there's another player thrust into the national spotlight along with Sam: It's Sheriff Billy Wyatt, who's in way over his head. The FBI is breathing down his neck, and the national press highlights his every bungle. He's confronting a madman—and his own limits. Can he outsmart either? Out of elements that thriller readers have come to expect, Jonathan Stone has woven a story they assuredly will not expect. In whirlwind action and hurricane prose that echo the best of James Patterson and Harlan Coben, Stone is in top form here, delivering a tale about the unchecked power of the media and the unreasonable passions of fatherhood—with a payoff that will stun and startle, yet make perfect sense. Parting Shot is a shot of adrenaline. It's a bullet that rotates wildly till it finds its target—deep in the reader's imagination. It's the latest work from a writer whose fiction Ian Rankin has hailed as "prime entertainment" and T. Jefferson Parker has called "clever, bold, and a little nasty."

Its time that people on the street have more access to truth about things that directly affect them. Some of you may think that this is a novel, to be burnt after reading. I strongly differ with you on that point; Marvin Gaye had it right years ago, when he asked the question *Whats Going On?* For those of us on the streets we need to know, if we are going to survive in this world. No, dont burn the novel, go find out whats going on in your community, city, county, state, and country. Know who you are sleeping with, whats happening to your children, and will you have any grand children, and what kind of life will they have? Truth is, often stranger than fiction!

London, today. Construction workers make an extraordinary find: a crude atomic bomb, dating from World War II. Its discovery forces Deputy Home Minister Edmund Ramsden to scour the files of Britain's wartime intelligence for an explanation. What he learns forces his country—and the United States—to confront the last, dark secret of the war. The story shifts back to July, 1945. Young physicist Philip Cavanaugh, working on America's first atomic bomb, is suddenly ordered on a clandestine journey from New Mexico into occupied Germany. His mission: inspect a strange Nazi laboratory lying within the Russian zone. Cavanaugh's dangerous visit—and the fantastic secret he uncovers—draws him into a web of intrigue involving the victorious British, Soviet, and American powers. Kidnapped by British espionage, pursued by the Russians, Cavanaugh manages to return to Washington, D.C., only to face the greatest threat of all: a desperate, last-ditch scheme by the Nazis to annihilate the three Allied capitals with primitive atomic weapons. Scrupulously based on actual historical and scientific developments, Parting Shot is an exciting, fast-paced techno-thriller that rewrites the end of World War II.
