The smc PENTAX-DA, HD PENTAX-DA, smc PENTAX-DA L, and smc PENTAX-DA\* lenses are designed to be used exclusively on digital cameras with an APS C sized sensor (the K and \*ist D digital camera series). Their image circle covers only the 18 x 24mm format of APS C sized sensors so the corners of the image will come out dark if the lens is used on a 24 x 36mm film camera or a 24 x 36mm full-frame digital SLR.

Pentax K-Mount Lenses Explained: The differences between ...

Pentax lenses were first badged as Takumar. The Takumar branded lenses were well respected for their line of Super Takumar, which designated the high performance coating applied to the lens as well as the optical formulas used to make them. The majority of the industry at the time was still satisfied with the variations of the "plumb" coating process and later some of the two and three layer processes as well. Asahi Pentax soon introduced the Takumar Super-Multi-Coated line of lenses which was a

The Asahi Optical company rightly claimed that the history of Pentax cameras is the history of the 35mm SLR. More than any other manufacturer, Asahi has been responsible for the 35mm SLR becoming the universal camera for all serious amateurs and many professionals. They pioneered many of the technical advances that make the SLR the near perfect instrument it is today. This story is told by Danilo Cecchi through the many models produced during nearly forty years.

- Guide to Pentax's mid-price "pro-sumer" camera, created in response to customer demand - Camera is loaded with great features, including Live View, HD Video modes, Shake Reduction, auto HDR function, auto distortion compensation, and more

If you're a beginner photographer, this book can save you hundreds of dollars. If you're a seasoned pro, it can save you thousands. With access to over 16 HOURS of online video, this book helps you choose the best equipment for your budget and style of photography. In this book, award-winning author and photographer Tony Northrup explains explains what all your camera, flash, lens, and tripod features do, as well as which are worth paying for and which you can simply skip. Tony provides information specific to your style of photography, whether you're a casual photographer or you're serious about portraits, landscapes, sports, wildlife, weddings, or even macro. For the casual reader, Tony provides quick recommendations to allow you to get the best gear for your budget, without spending days researching.
