AP POGIL- Global Climate Change.pdf

[Answer: Five peaks and four troughs.] The greenhouse effect is a process by which greenhouse gases keep the Earth warm by trapping heat before it can escape into outer space. Image source: U.S. EPA. Climate Change Indicators in the United States.

GETTING TO THE CORE: THE LINK BETWEEN

The enhanced greenhouse effect caused by a greater buildup of carbon dioxide and methane (and other greenhouse gases) leads to less radiated heat leaving the atmosphere, resulting in warmer global temperatures. Scientists are confident that human burning of fossil fuels is a major contributor to the enhanced greenhouse effect.

Global Climate Change Worksheets & Teaching Resources | TpT

The global mean temperature would be -18°C rather than +15°C. Two-thirds of this approximately 33 °C difference in temperature brought about by the natural greenhouse effect is attributable to atmospheric vapour. The rest is made up of carbon dioxide (21%) and to a lesser extent trace gases and aerosols.

Global climate change - germanwatch.org

Carbon Dioxide and Climate Change The climate of the Earth is constantly changing, in response to changes in the incoming solar radiation, the patterns of the continents, the amount of dust in the atmosphere, the chemical composition of the atmosphere and many other factors.

Collectively, these changes are called global climate change and include a worldwide increase in temperature due primarily to rising levels of atmospheric carbon dioxide. There are several causes of global climate change, including human activity.

35.5 Climate and the Effects of Global Climate Change ...

Global Climate Change. Paul Andersen explains how the climate on the earth is affected by the amount of solar radiation and the greenhouse affect. The addition of anthropogenic greenhouse gases has led to global warming which is impacting humans on the planet. A discussion of the greenhouse effect and greenhouse gases (including water vapor, carbon dioxide, methane, nitrous oxide, and CFCs) is included.
