**Guide** This book is a no-nonsense guide for Office users who have a SharePoint environment deployed. Written by the person responsible for large SharePoint deployment – his role is helping desktop users integrate and use SP features seamlessly – our author takes users through working with their familiar Office applications and leveraging SharePoint on the backend. This is different than using SharePoint; it's about putting Office to work and integrating it with SharePoint in such a way that even more benefits and synergies are realized. It's about using Office and
