In today' s globalized world, traditions of a national Self and a national Other no longer hold. This timely volume considers the stakes in our changing definitions of national boundaries in light of the unmistakable transformation of German and Dutch societies. Examining how the literature of migration intervenes in public discourses on multiculturality and including detailed analysis of works by the Turkish-German writers Emine Sevgi Özdamer and Feridun Zaimoglu and the Moroccan-Dutch writers Abdelkader Benali and Hafid Bouazza, *New Germans*. New Dutch offers crucial insights into the ways in which literature negotiates both difference and the national context of its writing.

Originally published in 1955, this introductory text was created for the general reader or students of the classics seeking a greater understanding of Ovid.

E' comodo definirsi scrittori da parte di chi non ha arte n è parte. I letterati, che non siano poeti, cio è scrittori stringati, si dividono in narratori e saggisti. E' facile scrivere "C" era una volta..." e parlare di cazzate con nomi di fantasia. In questo modo il successo è assicurato e non hai rompialle che si sentono diffamati e che ti querelano e che, spesso, sono gli stessi che ti condannano. Meno facile è essere saggisti e scrivere "C" è adesso...." e parlare di cose reali con nomi e cognomi. Impossibile poi è essere saggisti e scrivere delle malfatte dei magstrati e del Potere in generale, che per logica ti perseguitano per farti cessare di scrivere. Devastante è farlo senza essere di sinistra. Quando si parla di veri scrittori ci si ricordi di Dante Alighieri e della fine che fece il primo saggista mondiale. Le vittime, vere o presunte, di soprusi, parlano solo di loro, inascoltati, pretendendo aiuto. Io da vittima non racconto di me e delle mie traversie. Ascoltato e seguito, parlo degli altri, vittime o carnefici, che l' aiuto cercato non lo concederanno mai. " Chi non conosce la verit à è uno sciocco, ma chi, conoscendola, la chiama bugia, è un delinquente ". Aforisma di Bertolt Brecht. Bene. Tante verit à soggettive e tante omert à son tasselli che la mente corrompono. Io le cerco, le filtro e nei miei libri compongo il puzzle, svelando l' immagine che dimostra la verit à oggettiva censurata da interessi economici ed ideologie vetuste e criminali. Rappresentare con verit à storica, anche scomoda ai potenti di turno, la realt à contemporanea, rapportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perch è la massa dimentica o non conosce. Denuncio i difetti e caldeggio i pregi italiani. Perch è non abbiamo orgoglio e dignit à per migliorarci e perch è non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi. Insomma, siamo bravi a farci del male e qualcuno deve pur essere diverso!

Classical Rhetoric in the Middle Ages: The Medieval Rhetors and Their Art 400-1300, with manuscript survey to 1500 CE is a completely updated version of John Ward' s much-used doctoral thesis of 1972, and is the definitive treatment of this fundamental aspect of medieval and rhetorical culture.

This open access book presents theoretical and practical research relating to the vast, publicly financed program for the construction of new schools and the reorganization of existing educational buildings in Italy. This transformative process aims to give old buildings a fresh identity, to ensure that facilities are compliant with the new educational and teaching models, and to improve both energy efficiency and structural safety with respect to seismic activity. The book is divided into three sections, the first of which focuses on the social role of the school as a civic building that can serve the needs of the community. Innovations in both design and construction processes are then analyzed, paying special attention to the Building Information Modeling (BIM) strategy as a tool for the integration of different disciplines. The final section is devoted to the built heritage and tools, technologies, and approaches for the upgrading of existing buildings so that they meet the new regulations on building performance. The book will be of interest to all who wish to learn about the latest insights into the challenges posed by, and the opportunities afforded by, a comprehensive school building and renovation program.

È inutile perdere tempo a lamentarsi. Non cambia nulla. Vuoi provare invece a fare la rivoluzione? Allora inizia dal modo di vedere il mondo!

In this weaving of radical political economy, Omnia Sunt Communia sets out the steps to postcapitalism. By conceptualising the commons not just as common goods but as a set of social systems, Massimo De Angelis shows their pervasive presence in everyday life, mapping out a strategy for total social transformation. From the micro to the macro, De Angelis unveils the commons as fields of power relations – shared space, objects, subjects – that explode the limits of daily life under capitalism. He exposes attempts to co-opt the commons, through the use of code words such as ‘participation’ and ‘governance’, and reveals the potential for radical transformation rooted in the reproduction of our communities, of life, of work and of society as a whole.
