A diary written during the summer of 1945, when the future president was a twenty-eight-year-old reporter, shares Kennedy's insights into postwar Europe

John Fitzgerald Kennedy led his nation for little more than a thousand days, yet his presidency is intensely remembered, not merely as a byproduct of his tragic fate. Kennedy steered the nation away from the brink of nuclear war, initiated the first nuclear test ban treaty, created the Peace Corps, and launched American on its mission to the moon and beyond. JFK inspired a nation, particularly the massive generation of baby boomers, injecting hope and revitalizing faith in the American project. 2013 will mark the fiftieth anniversary of Kennedy's untimely death, a milestone to be marked by an avalanche of

new books on his life and importance. Martin Sandler's *The Letters of John F. Kennedy* will stand out among them, as the only book that draws on letters from and to Kennedy, as collected at the Kennedy Presidential Library and Museum. Drawn from more than two million letters on file at the library--many never before published--this project presents readers with a portrait of both Kennedy the politician and Kennedy the man, as well as the times he lived in. Letters to and from the likes of Martin Luther King Jr, Clare Booth Luce, Pearl Buck, John Wayne, Albert Schweitzer, Linus Pauling, Willy Brandt, Eleanor Roosevelt, Nikita Khrushchev, Harry Truman, Herbert Hoover, a young John Kerry, and Ngo Dinh Diem are complemented by letters from ordinary citizens, schoolchildren, and concerned Americans. Each letter will accompanied by lively and informative contextualization. Facsimiles of many letters will appear, along with photographs and other visual ephemera from the Kennedy Library and Museum.

The man who saved the lives of his PT-109 crewmen during WWII and became the 35th president fought-and won-his first battle at the age of two-and-a-half, when he was stricken with scarlet fever. Although his presidency was cut short, our nation's youngest elected leader left an indelible mark on the American consciousness and now is

profiled in our Who Was...? series. Included are 100 black-and-white illustrations as well as a timeline that guides readers through this eventful period in history.

The International Tracing Service, one of the largest Holocaust-related archival repositories in the world, holds millions of documents that enrich our understanding of the many forms of persecution during the Nazi era and its continued repercussions ever since. Drawing on a selection of recently available documents from the archive, this essential resource provides new insights into human decision-making in genocidal settings, the factors that drive it, and its far-reaching consequences. The sources that the author has collected and contextualized here reflect the full range of behaviors and roles that victims, their oppressors, beneficiaries, and postwar aid organizations played beginning in 1933, through World War II, the Holocaust, and up to the present.

A biography of Franklin Delano Roosevelt examines his political leadership in a dark time of Depression and war, his championship of the poor, his revolutionary New Deal legislation, and his legacy for the future.

Read Online Prelude To Leadership The Postwar Diary Of John F Kennedy European Diary Of John F Kennedy Summer 1945

This book offers a timely and multifaceted reanalysis of student radicalism in postwar Japan. It considers how students actively engaged the early postwar debates over subjectivity, and how the emergence of a new generation of students in the mid-1950s influenced the nation's embrace of the idea that 'the postwar' had ended. Attentive to the shifting spatial and temporal boundaries of 'postwar Japan,' it elucidates previously neglected histories of student and zainichi Korean activism and their interactions with the Japanese Communist Party. This book is a key read for scholars in the field of Japanese history, social movements and postcolonial studies, as well as the history of student radicalism.

In this gripping memoir, John F. Kennedy's closest advisor recounts in full for the first time his experience counseling Kennedy through the most dramatic moments in American history. Sorensen returns to January 1953, when he and the freshman senator from Massachusetts began their extraordinary professional and personal relationship. Rising from legislative assistant to speechwriter and advisor, the young lawyer from Nebraska worked closely with JFK on his most important speeches, as well as his book Profiles in Courage. Sorensen encouraged the junior senator's political ambitions—from a failed bid for the vice presidential nomination in 1956 to the successful presidential

Read Online Prelude To Leadership The Postwar Diary Of John F Kennedy European Diary Of John F Kennedy Summer 1945

campaign in 1960, after which he was named Special Counsel to the President. Sorensen describes in thrilling detail his experience advising JFK during some of the most crucial days of his presidency, from the decision to go to the moon to the Cuban Missile Crisis, when JFK requested that the thirty-four-year-old Sorensen draft the key letter to Khrushchev at the most critical point of the world's first nuclear confrontation. After Kennedy was assassinated, Sorensen stayed with President Johnson for a few months before leaving to write a biography of JFK. In 1968 he returned to Washington to help run Robert Kennedy's presidential campaign. Through it all, Sorensen never lost sight of the ideals that brought him to Washington and to the White House, working tirelessly to promote and defend free, peaceful societies. Illuminating, revelatory, and utterly compelling, Counselor is the brilliant, long-awaited memoir from the remarkable man who shaped the presidency and the legacy of one of the greatest leaders America has ever known.

"This is a book about the most admirable of human virtues--courage. 'Grace under pressure,' Ernest Hemingway defined it. And these are the stories of the pressures experienced by eight United States Senators and the grace with which they endured them." -- John F. Kennedy During 1954-55, John F. Kennedy, then a U.S. Senator, chose eight of his

historical colleagues to profile for their acts of astounding integrity in the face of overwhelming opposition. These heroes include John Quincy Adams, Daniel Webster, Thomas Hart Benson, and Robert A. Taft. Awarded the Pulitzer Prize in 1956, Profiles in Courage resounds with timeless lessons on the most cherished of virtues and is a powerful reminder of the strength of the human spirit. It is, as Robert Kennedy states in the foreword, "not just stories of the past but a book of hope and confidence for the future. What happens to the country, to the world, depends on what we do with what others have left us.

Records the efforts of six hundred British and American officers to escape from a Nazi prison camp.

This book repositions the groundbreaking Bretton Woods conference of July 1944 as the first large-scale multilateral North-South dialogue on global financial governance. It moves beyond the usual focus on Anglo-American interests by highlighting the influence of delegations from Latin America, India, the Soviet Union, France, and others. It also investigates how state and private interests intermingled, collided, and compromised during the negotiations on the way to a set of regulations and institutions that still partly frame global economic governance in the early twenty-first century. Together, these

Read Online Prelude To Leadership The Postwar Diary Of John F Kennedy European Diary Of John F Kennedy Summer 1945

essays lay the groundwork for a more comprehensive analysis of Bretton Woods as a pivotal site of multilateralism in international history.
