Real World Algebra

Word Problems

The key word

"same" in this

problem means that

I am going to set

my two expressions

equal to each other.

When we set the

two expressions

Access Free Real World

equal, we now have an equation with variables on both sides. After solving the equation, you find that $x = 30$, which means that after 30 weeks, you and your sister will have the same amount of money.

Problems
Chezer

numbers is 5 to 1.

The sum is 18.

What are the two numbers? Solution

Let x be the first number. Let y be the second number

$x / y = 5 / 1$
 $x + y = 18$
Using $x / y = 5 / 1$, we get $x = 5y$
after doing cross multiplication

Replacing $x = 5y$ into $x + y = 18$, we
