Why cutting up your credit cards won't make you rich A popular TV personality often says, "Take out your credit cards and cut them into pieces." While that is sound advice for people who are not financially responsible, it is inadequate advice for anyone who wants to become rich or financially free. In other words, just cutting up your credit cards will not make you rich. What does make you rich is financial education...unfortunately a type of

education we do not receive in school. If a person has a solid financial education, they would know that there are two kinds of debt...good debt and bad debt. A person with a sound financial education would know how to use good debt to make them richer faster...much faster than a person who only saves money and has no debt. Rich Dad's Guide to Becoming Rich * Are you in credit card debt? * Is job security dead? * Is your financial security threatened? * Is a high-paying job the answer? * Is your money working for you? * Do you have good debt or bad debt? We all need more financial education. We need to know how to have our money work hard for us so we don't have to spend our lives working for money. That is why we need more sophisticated financial education...not oversimplified and childish financial tips such as cut up your credit cards or save more money. If you are ready to increase your financial education and enjoy your credit cards, then this book is for you.

Starting as a college dropout with no family money, he created a publishing empire, founded Maxim magazine, made himself one of the richest people in the UK, and had a blast in the process. How to Get Rich is different from any other book on the subject because Dennis isn't selling snake oil, investment tips, or motivational claptrap. He merely wants to help people embrace entrepreneurship, and to share lessons he learned the hard way. He reveals, for example, why a regular paycheck is like crack cocaine; why great ideas are vastly overrated; and why "ownership isn't the important thing, it's the only thing."
