Guided Reading Levels, Developmental Reading Assessment (DRA Levels), Lexile Levels, and ATOS Levels are all tools for determining reading levels of texts and ability levels of readers. The practice of leveling texts by complexity is based on science and statistics, but like any assessment, it is a metric used to plan instruction.

The problem is, measuring reading level is really outside of its sweet spot as a learning tool, with better resources available from DRA, DIBELS, Lexile, Reading Recovery, and Rigby, among others. There is also the issue of availability, with most schools only using one or two of these tools, and primarily in early elementary school.
