Drawing from his well known methodology, Bill Strong presents a broader application of sentence combining as the basis for teaching writing with the WRITER'S TOOLBOX: A SENTENCE-COMBINING WORKSHOP. This exciting new developmental writing text uses a writing process framework and stresses a collaborative approach, while providing students with skill instruction through extensive sentence combining activities. In short, the WRITER'S TOOLBOX is the only text at the developmental level to teach grammar, usage, and punctuation skills in the context of a conceptual framework - one that covers generating and planning, freewriting and drafting, shaping and revising, and editing and proofreading.

In Creativity and Chaos: Reflections on a Decade of Progressive Change in Public Schools, 1967-1977, Charles Suhor brings to life the bold challenges to the status quo in education during a decade of national turmoil. The regimentation and rote learning of traditional schooling could not have escaped the restless temper of the times--Vietnam war protests, racial strife, assassinations, hippie communes, the sexual revolution, an emerging drug culture, and daring innovations in pop/rock music. Suhor describes his immersion in post-World War II popular culture of New Orleans as a rich backdrop for his years as an impassioned educational reformer at local and national levels. A risk-taking teacher and district supervisor of English, he plunged headlong into controversies over black literature, censorship, ebonics, the "new grammar," faculty integration, testing, standardization, and computer technology. He demonstrates how the sweeping national trends often took quirky, distinctive turns in a city that delights in marching to a different drummer. Suhor's engaging account takes the reader into classrooms as well as the intrigues of central office politics and national leaders' disputes on how to best teach students in a time of change. In no sense a doctrinal liberal, he lambastes the errors and excesses of the progressive movement and traces its decline and the backlash demand for a return to basic skills. Suhor concludes with an update on innovations that have waned or persisted in today's schools.
