The controversial New York City police commissioner and New York Times bestselling author of *The Lost Son* shares the story of his fall from grace and the effects of his incarceration on his views of the American justice system. Bernard Kerik was New York City ' s police commissioner during the 9/11 attacks, and became an American hero as he led the NYPD through rescue and recovery efforts of the World Trade Center. His r é sum é as a public servant is long and storied, and includes receiving a Medal of Honor. In 2004, Kerik was nominated by George W. Bush to head the Department of Homeland Security. Now, he is a former Federal Prison Inmate known as #84888-054. Convicted of tax fraud and false statements in 2007, Kerik was sentenced to four years in federal prison. Now, for the first time, he talks candidly about what it was like on the inside: the torture of solitary confinement, the abuse of power, the mental and physical torment of being locked up in a cage, the powerlessness. With newfound perspective, Kerik makes a plea for change and illuminates why our punishment system doesn ' t always fit the crime. In this extraordinary memoir, Kerik reveals his unprecedented view of the American penal system from both sides: as the jailer and the jailed. With astonishing candor, bravery, and insider ' s intelligence, Bernard Kerik shares his fall from grace to incarceration, and turns it into a genuine and uniquely insightful argument for criminal justice

This brief text identifies the issues, resources, actors, and institutions involved in public policy making and traces the dynamics of the policymaking process, including the triggering of issue awareness, the emergence of an issue on the public agenda, the formation of a policy commitment, and the implementation process that translates policy into practice. Throughout the text, which has been revised and updated, Gerston brings his analysis to life with abundant examples from the most recent and emblematic cases of public policy making. At the same time, with well-chosen references, he places policy analysis in the context of political science and deftly orients readers to the classics of public policy studies. Each chapter ends with discussion questions and suggestions for further reading.

Weight Loss Boss is a frank, funny, and groundbreaking guide to surviving and thriving in an obesogenic world, from the CEO of Weight Watchers International. We live in a dangerous food world, full of temptation and instant gratification. No wonder obesity among Americans has tripled since the 1960s—and that those prone to weight gain fail over and over to maintain their hard-won goals. Simply put, our brains and environments are stacked against us. Simplistic willpower-based and food-focused diets will never bring lasting change. But a solution is within reach—one that will help readers live better, longer, and more happily. In fact, David Kirchoff isn't just the President and CEO of Weight Watchers—he's also one of its biggest success stories. In his pursuit of a trim physique, Kirchoff divulges his slide into full-fledged obesity, his struggles to manage his relationship with food, and to find an exercise regimen that sticks. Drawing on the latest scientific research and numerous other inspiring personal stories, he makes the case that the only recipe for long-term success is to radically shift our mindset when thinking about obesity and adopting a healthy lifestyle that stays with us for good. This requires incorporating positive habits that become second nature, and rigorously managing one's food environment—as well as embracing practical behavior-change tools and other sustainable maintenance strategies. In the light of a new, healthier lifestyle that helps readers look good and feel good, change isn't a burden--it's a release.
