Corrina Park used to have big plans. Studying English literature in college, she imagined writing a successful novel and leading the idealized life of an author. But she's been working at the same advertising agency for the past five years and the only thing she's written is . . . copy. Corrina knows there must be more to life, but and she faces the same question as does everyone in her generation: how to find it? Here is the brilliant debut graphic novel about a young woman's search for happiness and self-fulfillment in the big city. (With two-color illustrations throughout.)

the subject of interior design in a retail context. Retail spaces are at the forefront of contemporary interior design because they are updated regularly to stay competitive and appealing This book examines brand and identity as a starting point for the design concept, and the relationship between the interior and its context, site and setting. It introduces ways of manipulating space and volume, exploring the spatial elements of ceilings, floors and walls, and investigating the notions of layout, circulation and pace. It also pays close attention to the effects of a building on the environment. This is a complete guide to creating retail spaces that entice, excite and enthral the consumer by creating an experience with

A history of shoplifting, revealing the roots of our modern dilemma. Rachel Shteir's *The Steal* is the first serious study of shoplifting, tracking the fascinating history of this ancient crime. Dismissed by academia and the mainstream media and largely misunderstood, shoplifting has become the territory of moralists, mischievous teenagers, tabloid television, and self-help gurus. But shoplifting incurs remarkable real-life costs for retailers and consumers. The "crime tax"-the amount every American family loses to shoplifting-related price inflation-is more than \$400 a year. Shoplifting cost American retailers \$11.7

billion in 2009. The theft of one \$5.00 item from Whole Foods can require sales of hundreds of dollars to break even. The Steal begins when shoplifting entered the modern record as urbanization and consumerism made London into Europe's busiest mercantile capital. Crossing the channel to nineteenth-century Paris, Shteir tracks the rise of the department store and the pathologizing of shoplifting as kleptomania. In 1960s America, shoplifting becomes a symbol of resistance when the publication of Abbie Hoffman's *Steal This Book* popularizes shoplifting as an antiestablishment act. Some contemporary analysts see our current epidemic as a response to a culture of hyper-consumerism; others question

whether its upticks can be tied to economic downturns at all. Few provide convincing theories about why it goes up or down. Just as experts can't agree on why people shoplift, they can't agree on how to stop it. Shoplifting has been punished by death, discouraged by shame tactics, and protected against by high-tech surveillance. Shoplifters have been treated by psychoanalysis, medicated with pharmaceuticals, and enforced by law to attend rehabilitation groups. While a few individuals have abandoned their sticky-fingered habits, shoplifting shows no signs of slowing. In *The Steal*, Shteir guides us through a remarkable tour of all things shoplifting—we visit the Woodbury Commons Outlet Mall, where

boosters run rampant, watch the surveillance footage from Winona Ryder's famed shopping trip, and learn the history of antitheft technology. A groundbreaking study, *The Steal* shows us that shoplifting in its many guises—crime, disease, protest—is best understood as a reflection of our society, ourselves.

The creative and science-driven design of the point of sale has become a crucial success factor for both retailers and service businesses. In the newly revised and expanded edition of this book, you will learn some of the shopper marketing secrets from the authors about how you can design your store to increase sales and delight shoppers at the same time.

By the time you are through reading, you will have learned how shoppers navigate the store, how they search for products, and how you can make them find the products you want them to see. You will also be able to appeal to shopper emotions through the use of colors, scents, and music, as well as make shopping memorable and fun by creating unique experiences for your shoppers. The focus is on the practical applicability of the concepts discussed, and this accessible book is firmly grounded in consumer and psychological research. At the end of each chapter, you will find several takeaway points. The book concludes with the "Store Design Cookbook," full of ready-to-serve recipes for your own store design and

From the acclaimed author of *The Bastard of Istanbul*, a colorful, magical tale set during the height of the Ottoman Empire Chosen for Camilla, Duchess of Cornwall's "Reading Room" Book Club In her latest novel, Turkey's preeminent female writer spins an epic tale spanning nearly a century in the life of the Ottoman Empire. In 1540, twelve-year-old Jahan arrives in Istanbul. As an animal tamer in the sultan's menagerie, he looks after the exceptionally smart elephant Chota and befriends (and falls for) the sultan's beautiful daughter, Princess Mihrimah. A palace education leads Jahan to Mimar Sinan, the

empire's chief architect, who takes Jahan under his wing as they construct (with Chota's help) some of the most magnificent buildings in history. Yet even as they build Sinan's triumphant masterpieces--the incredible Suleymaniye and Selimiye mosques--dangerous undercurrents begin to emerge, with jealousy erupting among Sinan's four apprentices. A memorable story of artistic freedom, creativity, and the clash between science and fundamentalism, Shafak's intricate novel brims with vibrant characters, intriguing adventure, and the lavish backdrop of the Ottoman court, where love and loyalty are no match for raw power.
