John Peck and Martin Coyle's The Student's Guide to Writing became a firm favourite amongst lecturers when it published in 1999. Aimed at students wishing to perfect their writing skills, it shows them how to construct a sentence, a paragraph and an essay and carefully explains grammar, punctuation and spelling. For this second edition, the authors have made their explanations even clearer, included a 'Spot the Mistake' section, and added an index for easier navigation.

This revision and practice book covers all areas that will be tested at the end of primary school in the English test in Grammar, punctuation, spelling and vocabulary test at levels 3 - 5. This is the Standard Assessment Test or the SATs as popularly known. Some harder questions aimed at level 6 have been deliberately included in the book to give further practice to pupils who are able; taken all together, completion of the exercises will not only help pupils perform well in their SATs, they will prepare them well for their work at secondary school and beyond. Each section provides background information on different word classes in sentence construction; examples of correct usage in both speaking and writing composition are included as are a variety of consolidation exercises. Completing the exercises will ensure that pupils gain fluency in both oral and written communications and know what to do if misunderstanding should occur during private or school work. The revision notes and exercises will also help pupils' reading fluency. This book is also suitable for those new to the English language or learning English as an additional language.
