According to Fowler, there are seven primary stages of faith (including Stage 0) in the life of the individual. They are as follows: Stage 0 - Primal Undifferentiated Faith (Ages Birth-2): This stage is very much like Erik Erikson's first stage of "trust versus mistrust." Here, the baby acquires experiences from the outer environment that either instill in him a feeling of trust and assurance (from being comforted, living in a secure and stable environment, and a experiencing a sense ...

Dr. James Fowler has asked these questions, and others like them, of nearly six hundred people. He has talked with men, women, and children of all ages, from four to eighty-eight, including Jews, Catholics, Protestants, agnostics, and atheists. In many cases, the interviews became in-depth conversations that provided rare, intimate glimpses into the various ways our lives have meaning and purpose, windows into what this book calls faith. be equated with belief. Rather, faith is a person's way of leaning into and making sense of life.

More verb than noun, faith is the dynamic system of images, values, and commitments that guide one's life. It is thus universal: everyone who chooses to go on living operated by some basic faith. Building on the contributions of such key thinkers as Piaget, Erikson, and Kohlberg, Fowler draws on a wide range of scholarship, literature, and firsthand research to present expertly and engagingly the six stages that emerge in working out the meaning of our lives--from the intuitive, imitative faith of childhood through conventional and then more independent faith to the universalizing, self-

This book, now in its second edition, brings together the best available understandings of human development from a multidisciplinary perspective. Uniquely inclusive of the moral and faith dimensions of context and life-cycle development, Human Development and Faith examines the interplay of mind, body, family, community, and soul at every stage of development. It addresses two central questions: What are the "good-enough" conditions of parenting, family, and community

in each phase of life, from birth to death, that support growth and development? What gives life adequate meaning as

development proceeds? If human development describes the normative and hoped-for passages of life, then faith provides the necessary component of meaning.

Throughout the various perspectives offered in this volume is the premise that faith is that quality of living that makes it possible to fully live. The Journal of Pastoral Theology called the first edition of Human Development and Faith "an excellent text for pastoral theology courses, because it fulfills its ambitious goal of bringing a holistic faith perspective to the usual topics of

development." This second edition includes a new chapter on infancy, updates reflecting our growing awareness of cultural diversity, and a new preface.

In this updated reissue of his 1984 classic, James Fowler applies his groundbreaking research on the development of faith to Christianity. In his revised first chapter Fowler locates his approach to the study of human and faith development in relation to the contemporary conversation about identity and selfhood in postmodernity. Fowler invites readers to explore what it means to find and claim vocation: a purpose for one's life that is part
