Originally conceived of more than thirty-five years ago, these diminutive creatures have become stars in their own right. With uncanny grace and ease they have won hearts and upstaged stars. They are tribbles. When the writers of Star Trek: Deep Space Nine™ were looking for the perfect episode in which their characters could pay homage and interact with the crew from the original Star Trek™, "The Trouble with Tribbles" instantly came to mind. Here is the story of how the wizards of Star Trek were able to create the magic that enabled -- with nothing more than countless hours of work -- ordinary actors to time-travel. This is the story behind the creation of the episode "Trials and Tribble-ations." This is The Magic of Tribbles.

When an abandoned space habitat is found within a distant asteroid belt, the Starship Enterprise is sent to investigate. Captain Kirk and his crew discover an artificial world full of technological marvels -- and unexpected dangers. But wonder and curiosity give way to fear when the habitat's shifting orbit sends it on a collision course with an inhabited planet within the same solar system. Now Kirk and Spock must find a way to save the planet without destroying a treasure trove of alien science, and time is running out...

Celebrate the 40th anniversary of Star Trek: The Motion Picture with this classic movie novelization written by legendary Star Trek creator Gene Roddenberry! The original five-year mission of the Starship Enterprise to explore strange new worlds and to seek out new life and new civilizations has ended. Now James T. Kirk, Spock, Dr. McCoy, and the rest of the crew of the Enterprise have separated to follow their own career paths and different lives. But now, an overwhelming alien threat--one that is ignoring all attempts at communication and annihilating all opposition in its path--is on a collision course with Earth, the very heart of the United Federation of Planets. And the only vessel that Starfleet can send in time to intercept this menace is a refitted Enterprise, with her old crew heeding the call to once again boldly go where no one has gone before...

Worf and the USS Defiant find themselves in a deadly trap in this suspenseful and white-knuckled thriller in the bestselling Day of Honor series taking place in Star Trek: Deep Space Nine. Dispatched on a secret mission, Commander Worf and the crew of the USS Defiant find themselves trapped--along with the exiled Klingons who had pledged their loyalty to Worf's dishonored family--on an alien world threatened by a global cataclysm. Worf must find a way to save himself and his fellow Klingons and also prevent a bloody massacre that will forever stain the honor of the Klingon Empire.

Discover the beginnings of Klingon's most sacred holiday in this thrilling entry in the bestselling Star Trek series. Signi Beta is an M-class planet ideal for farming. The Federation wants it, but the Klingon Empire has the stronger claim. Captain Kirk of the USS Enterprise hates to lose the planet, especially to his old adversary, Commander Kor. Their mutual antagonism turns into an uneasy alliance, however, when yet another alien fleet attacks both the Klingons and the USS Enterprise. Now Kirk and Kor must rely on each other's honor--or none of them may survive to wage their war again.
