Baniya—a derivative of the Sanskrit word Vanij, is a term synonymous with India ' s trader class. Over the decades, these capitalists spread their footprint across vast sectors of the economy from steel and mining to telecom and retail. And now even e-tail. Nikhil Inamdar ' s Rokda features the stories of a few pioneering men from this mercantile community—Radheshyam Agarwal and Radheshyam Goenka, founders of the cosmetic major Emami; Rohit Bansal, co-founder of Snapdeal; Neeraj Gupta, founder of Meru Cabs; and V.K. Bansal, a humble mathematics tutor whose genius spawned a massive coaching industry in Kota—amongst others. Through the triumphs and tribulations of these men in the epoch marking India ' s entire post independence struggle with entrepreneurship—from the License Raj to the opening up of the floodgates in 1991, and the dawn of the digital era—Rokda seeks to uncover the indomitable spirit of the Baniya.

The stunning debut novel from one of the most creative artists of our generation, Bobby Hall, a.k.a. Logic. " Bobby Hall has crafted a mind-bending first novel, with prose that is just as fierce and moving as his lyrics. Supermarket is like Naked Lunch meets One Flew Over the Cuckoo's Nest—if they met at Fight Club. " —Ernest Cline, #1 New York Times Bestselling author of Ready Player One Flynn is stuck—depressed, recently dumped, and living at his mom ' s house. The supermarket was supposed to change all that. An ordinary job and a steady check. Work isn ' t work when it ' s saving you from yourself. But things aren ' t quite as they seem in these aisles. Arriving to work one day to a crime scene, Flynn ' s world collapses as the secrets of his tortured mind are revealed. And Flynn doesn ' t want to go looking for answers at the supermarket. Because something there seems to be looking for him. A darkly funny psychological thriller, Supermarket is a gripping exploration into madness and creativity. Who knew you could find sex, drugs, and murder all in aisle nine?

" The wise man knows he doesn ' t know. The fool doesn ' t know he doesn ' t know. " Lao Tzu " In the West they only respect experts. But the expert mind is the closed mind. " Shunryu Suzuki What ' s the most important step in fixing a puncture? It isn ' t jacking up the car, or taking the wheel off, or finding the puncture. There ' s something more fundamental than any of those. Something without which you can ' t even begin to fix a puncture. The most important step is finding out you ' ve got a puncture. Without that you can ' t do anything. Instead of saying, " It ' s just a bit bumpy, must be the road, " and carrying on, you must acknowledge that something has changed and you don ' t know what that is. If you don ' t admit you don ' t know what ' s happening, you can never find out. If you don ' t find out, you can never change it. The most important step, always, is admitting you don ' t know. That ' s the power of ignorance. In this latest collection of real-life stories, Dave Trott provides lessons about problem solving and creative thinking that can be applied in advertising, business, and the wider world. With his trademark wit, wisdom and critical eye, he shows how great problem solvers and creative thinkers are those who are not afraid to say " I don ' t know. "

Saying No to Jugaad is a riveting account of how the start-up ecosystem in India evolved rapidly in the last 10 years. Ushering in a new turn in the country's economy that shook up existing ways of doing business, start-ups brought together investors and a rare breed of entrepreneurs to create a set of unicorns focused, for the first time, on solving the country's problems. The book busts some of the common myths around e-commerce businesses and describes the evolution of grocery as the mother of all categories in this sector. It also is the story of how start-ups go through different distinct stages as they evolve and mature. The courage needed to hold your ground when the world seems to have a contrarian view, the relentless focus on customer centricity and the emphasis on foundation-building are illustrated through lucid and stirring stories. Entertaining and anecdotal, the book is not a panegyric about the founders or the company but is the story of real people and a real company with real flaws but also several great ideas and moments. Saying No to Jugaad vividly captures the vision, culture and commitment to values which has made Bigbasket one of India's most successful start-ups.
