The author of Ten Stupid Things Women Do to Mess Up Their Lives creates a list of common relationship foibles of couples on the verge of breakup. 150,000 first printing.

In her most provocative book yet, Dr. Laura urgently reminds women that to take proper care of their husbands is to ensure themselves the happiness and satisfaction they yearn for in marriage. Women want to be in love, get married, and live happily ever after. Yet disrespect for men and disregard for the value, feelings, and needs of husbands has fast become the standard for male-female relations in America. Those two attitudes clash in unfortunate ways to create struggle and strife in what could be a beautiful relationship. Countless women call Dr. Laura, unhappy in their marriages and seemingly at a loss to understand the incredible power they have over their men to create the kind of home life they yearn for. Now, in The Proper Care and Feeding of Husbands, Dr. Laura shows you—with real-life examples and real-life solutions—how to wield that power to attain all the sexual pleasure, intimacy, love, joy, and peace you want in your life. Dr. Laura's simple principles have changed the lives of millions. Now they can change yours.

"Finally, a book that will challenge your thinking about the stupid things you say and do!" If there is any book that every married woman should read, this is it; because let's face it, the only thing that stands in the way of you being the GREATEST wife, mother and partner is the bull sh#t story you've been whispering to yourself.Ten Stupid Things Married Women Say and Do is a wake-up call to every married woman that thinks being married is not PAP AND VLEIS.Ten Stupid Things Married Women Say and Do is a kick in the butt to any married woman that thinks they can never be the perfect combination of a GREAT wife; mother and partner.Ten Stupid Things Married Women Say and Do is a 'tickle in your nickle' kind of insult to remind every married woman that 'equal' is not the 'same' and that it's better to have 100/100 than 50/50.And yes, this book will make you laugh, cry and fall in love again, but if you still think you need to find your place as a married woman, in the kitchen, in the bedroom or the 'bored' room, then you have no reason to feel offended when Moss Mashamaite calls you STUPID; because after all "Stupid is, what STUPID does" ENJOY!

Building on the principles developed during her long career as a licensed marriage and family therapist, and addressing the chronic struggles of so many of her listeners and readers, Dr. Laura encourages "whiners" to reject negative thoughts, emotions, an

Following her previous New York Times bestsellers, Dr.Laura Schlessinger, the conscience of talk radio, now addresses an issue near and dear to her heart: the stupid things parents do to mess up their children. Never one to shy away from tough truths, Dr. Laura marshals compelling evidence for the widespread neglect of America's children and convincingly condemns the numerous rationalizations to excuse it. These are just a few of her hard-hitting points: Don't Have Them If You Won't Raise Them: "The cavalier manner in which our society treats child care, not as a matter of intimacy and love, but as a matter of convenience and economics, is deeply destructive to our children's sense of attachment, identity, and importance." Dads Need Not Apply: "Single motherhood may be more acceptable to society, but it is not acceptable to children; nor is it in their best interest." Brave New Baby: "In our society, reproductive freedom means anyone can decide to create a life by any means with no, and I mean no, consideration of what is in the best interest of that new human being." Spare the Rod: "Children without discipline often become adults with tempertantrums, defiance, rage, depression, anxiety, poor school and work adjustment, drug and alcohol abuse." Stupid Things Parents Do to Mess Up Their Kids covers all aspects of parenting and also tackles such cultural and societal concerns as abortion, modern sexuality, drug and alcohol use, violence, discipline, and a child's right to privacy.

Exploring how the past influences the present, the author discusses how to understand each individual's unique coping style and how to tap into the extraordinary quality of human spirit that will create the transition from victim to victor.

They number in the millions and they are incredibly important to families and to our society, yet they are underappreciated, little respected, and even controversial. Who are they? They are the stay-at-home moms. These are women who know in their hearts that staying home to raise their children is the right choice for the whole family. Some do it from the outset of their marriages, while others make the difficult transition from career-driven women to homemakers. Either way, it is a choice that is incredibly rich and rewarding, not to mention challenging. Now Dr. Laura, building on principles developed during her long career as a licensed marriage and family therapist, provides a wealth of advice and support, as well as compassion and inspiration, to women as they navigate the wonders and struggles of being stay-at-home moms. Learn how: to hold your head high and deal with naysayers; to see the benefits of being home not only for your children but also for your marriage; to understand the changes you see in yourself; to realize that the sacrifices you endure now will make for lasting bonds and a stronger family, in addition to a more cohesive community. In Praise of Stay-at-Home Moms is a special book, a profound and unique understanding of how important it is for mothers to raise their own children.
