Terror in the mind of God is a remarkable work made all the more remarkable by the author's dispassionate portrayal of people who, in every other facet (except that facet, religious belief, which has consumed and overwhelmed all the other elements of their humanity) of their lives seem to be no different from the reasonable and decent "normal" people who espouse Christian, Muslim, Sikh, Hindu, Buddhist,or Jewish beliefs.

His personal interviews with 1993 World Trade Center bomber Mahmud Abouhalima, Christian Right activist Mike Bray, Hamas leaders Sheik Yassin and Abdul Aziz Rantisi, and Sikh political leader Simranjit Singh Mann, among others, take us into the mindset of those who perpetrate and support violence in the name of religion."--Provided by publisher.

What motivates Islamic terrorists? What is in the mind of terror? Our news reports from the Middle East cover events—bombings, massacres, and suicide attacks. Our newscasters take time to explain who the players are—from Hezbollah to the Iranian Quds, from ISIS to the Palestinian National Authority. But there is something underneath these events and players that fuels atrocity after atrocity in the Middle East. What is it? Tass Saada provides the answer to that question as he delves into the mind of terror, explaining what motivates extremist groups throughout the Middle East. A former Muslim and a onetime sniper with Yasser Arafat ' s Fatah organization, Tass has lived it himself. At age 42, he steered his life in a radical new direction, committing it to Jesus. Tass not only describes the motivations and aspirations of those who live in the Middle East, he also outlines a peaceful solution. We can plant seeds of hope that will transform not only the Middle East, but also our increasingly diverse neighborhoods at home. Discover the mind behind terror and how to oppose its grip.

Demonstrates the similarities between the mind control techniques used by cults and the means employed by terrorist organizations to recruit and radicalize members, identifying the common denominator in the exploitation of the individual. Original.

For four years, Jessica Stern interviewed extremist members of three religions around the world: Christians, Jews, and Muslims. Travelling extensively—to refugee camps in Lebanon, to religious schools in Pakistan, to prisons in Amman, Asqelon, and Pensacola—the discovered that the Islamic jihadi in the mountains of Pakistan and the Christian fundamentalist bomber in Oklahoma have much in common. Based on her vast research, Stern lucidly explains how terrorist organizations are formed by opportunistic leaders who—using religion as both motivation and justification—recruit the disenfranchised. She depicts how moral fervor is transformed into sophisticated organizations that strive for money, power, and attention. Jessica Stern's extensive interaction with the faces behind the terror provides unprecedented insight into acts of inexplicable horror, and enable her to suggest how terrorism can most effectively be countered. A crucial book on terrorism, Terror in the Name of God is a brilliant and thought-provoking work.

AN INSTANT #1 NEW YORK TIMES BESTSELLER Named one of the most anticipated novels of the season by People, Associated Pres, Time, Los Angeles Times, Parade, St. Louis Post-Dispatch, The Guardian, Publishers Weekly, and more. From the #1 bestselling authors Hillary Clinton and Louise Penny comes a novel of unsurpassed thrills and incomparable insider expertise—State of Terror. After a tumultuous period in American politics, a new administration has just been sworn in, and to everyone ' s surprise the president chooses a political enemy for the vital position of secretary of state. There is no love lost between the president of the United States and Ellen Adams, his new secretary of state. But it ' s a canny move on the part of the president. With this appointment, he silences one of his harshest critics, since taking the job means Adams must step down as head of her multinational media conglomerate. As the new president addresses Congress for the first time, with Secretary Adams in attendance, Anahita Dahi, a young foreign service officer (FSO) on the Pakistan desk at the State Department, receives a baffling text from an anonymous source. Too late, she realizes the message was a hastily coded warning. What begins as a series of apparent terrorist attacks is revealed to be the beginning of an international chess game involving the volatile and Byzantine politics of Pakistan, Afghanistan, and Iran; the race to develop nuclear weapons in the region; the Russian mob; a burgeoning rogue terrorist organization; and an American government set back on its heels in the international arena. As the horrifying scale of the threat becomes clear, Secretary Adams and her team realize it has been carefully planned to take advantage of four years of an American government out of touch with international affairs, out of practice with diplomacy, and out of power in the places where it counts the most. To defeat such an intricate, carefully constructed conspiracy, it will take the skills of a unique team: a passionate young FSO; a dedicated journalist; and a smart, determined, but as yet untested new secretary of state. State of Terror is a unique and utterly compelling international thriller cowritten by Hillary Rodham Clinton, the 67th secretary of state, and Louise Penny, a multiple award-winning #1 New York Times bestselling novelist.

In contrast to the widely held assumption that terrorists as crazed fanatics, Jerrold Post demonstrates they are psychologically "normal" and that "hatred has been bred in the bone". He reveals the powerful motivations that drive these ordinary people to such extraordinary evil by exploring the different types of terrorists, from national-separatists like the Irish Republican Army to social revolutionary terrorists like the Shining Path, as well as religious extremists like al-Qaeda and Aum Shinrikyo. In **The Mind of the Terrorist**, Post uses his expertise to explain how the terrorist mind works and how this information can help us to combat terrorism more effectively.

Completely revised and updated, this new edition incorporates the events of September 11, 2001 into Mark Juergensmeyer's landmark study of religious terrorism.

A penetrating look into the inner logic of al-Qa'ida and like-minded extremist groups by which they justify September 11 and other terrorist attacks includes specific ideologies of jihadism, a new movement that allows members to call for the destruction of democracy and to murder innocent men, women, and children.

In compiling this annotated bibliography on the psychology of terrorism, the author has defined terrorism as "acts of violence intentionally perpetrated on civilian noncombatants with the goal of furthering some ideological, religious or political objective." The principal focus is on nonstate actors. The task was to identify and analyze the scientific and professional social science literature pertaining to the psychological and/or behavioral dimensions of terrorist behavior (not on victimization or effects). The objectives were to explore what questions pertaining to terrorist groups and behavior had been asked by social science researchers; to identify the main findings from that research; and attempt to distill and summarize them within a framework of operationally relevant questions. To identify the relevant social science literature, the author began by searching a series of major academic databases using a systematic, iterative keyword strategy, mapping, where possible, onto existing subject headings. The focus was on locating professional social science literature published in major books or in peer-reviewed journals. Searches were conducted of the following databases October 2003: Sociofile/Sociological Abstracts, Criminal Justice Abstracts (CJ Abstracts), Criminal Justice Periodical Index (C.J.P.I), National Criminal Justice Reference Service Abstracts (NCJRS), PsycInfo, Medline, and Public Affairs Information Service (PAIS). Three types of annotations were provided for works in this bibliography: Author's Abstract -- this is the abstract of the work as provided (and often published) by the author; Editor's Annotation -- this is an annotation written by the editor of this bibliography; and Key Quote Summary -- this is an annotation composed of "key quotes" from the original work, edited to provide a cogent overview of its main points.
