Daniel Corkery's The Hidden Ireland: A Study of Gaelic Munster in the Eighteenth Century, has had sustained appeal since its publication in 1925. There Corkery used literary evidence to sustain a picture of relieved poverty and oppression, spiritual counterpart to the social and economic conditions described by the Victorian chroniclers Froude and Lecky. This important text, supplemented with ...

The Hidden Ireland - Reassessment of a Concept - Louis -

In 1925 Daniel Corkery published THE HIDDEN IRELAND: A Study of Gaelic Munster in the Eighteenth Century (current edition, Gill and Macmillan), which helped restore the old culture to sight by telling the story of its demise, and conferred on the declassified scholar-poets a new mythic presence. Reading the book even now, the story has a lost-continent feel to it: a complete and functioning ...

Hidden Ireland: A Study of Gaelic Munster in the -

Whatever 'side' one takes in the Irish debate, what cannot be denied is that in the period approximately 1550 to 1850, one of the most ancient high cultures in Europe was ruthlessly smashed to pieces, leaving the shards to be collected from the side of the road and its ditches.

Although modern research into the period has been significant, Daniel Corkery's study of Irish poetry and culture in eighteenth century Munster is widely acknowledged as having had a profound influence on the shaping of modern Anglo-Irish literature.

Daniel Corkery's classic book The Hidden Ireland is a study of Irish language poetry and culture in eighteenth-century Munster. The 'Hidden Ireland' of the title is literary Ireland: Corkery's famous book is an attempt to reclaim Munster's Irish language poets from the hands of grammarians who read them only for their preposition and participle use and to restore them to their rightful place as vibrant and vital lyricists and visionaries. The Hidden Ireland, an instant classic when first published in 1924, was listed as one of the top 50 most influential Irish books in The Books That Define Ireland by Tom Garvin and Bryan Fanning. The Hidden Ireland was revolutionary in its recognition of the contribution of Irish language poets to Irish culture, a contribution that had previously been minimised or even erased in the Anglo-Irish versions of history that preceded it. Corkery's groundbreaking study of Irish poetry and culture in eighteenth century Munster is widely acknowledged as having had a profound influence on the shaping of modern Anglo-Irish literature in its foregrounding of the role of the Irish language in literature as a repository of Irishness and a specifically Irish worldview . Daniel Corkery's The Hidden Ireland (1924), arguing for an Irish cultural revival based on the Gaelic tradition of Munster in the eighteenth century, became almost official dogma after 1924, and led to impassioned debate among Irish writers and academics for decades afterwards, including Sean O'Faolain and Frank O'Connor, Corkery's rebellious students. Tom Garvin and Bryan Fanning, The Books That Define Ireland (2014)

Many thousands of Irish peasants fled from the country in the terrible famine winter of 1847-48, following the road to the ports and the Liverpool ferries to make the dangerous passage across the Atlantic. The human toll of "Black '47," the worst year of the famine, is notorious, but the lives of the emigrants themselves have remained largely hidden, untold because of their previous obscurity and deep poverty. In The End of Hidden Ireland, Scally brings their lives to light. Focusing on the townland of Ballykilcline in Roscommon, Scally offers a richly detailed portrait of Irish rural life on the eve of the catastrophe. From their internal lives and values, to their violent conflict with the English Crown, from rent strikes to the potato blight, he takes the emigrants on each stage of their journey out of Ireland to New York. Along the way, he offers rare insights into the character and mentality of the immigrants as they arrived in America in their millions during the famine years. Hailed as a distinguished work of social history, this book also is a tale of adventure and human survival, one that does justice to a tragic generation with sympathy but without sentiment.

This book is based mainly on the experience of the townland of Ballykilcline, a community of small farmers and laborers living on an obscure estate in the Irish midlands near the provincial market town of Strokestown, County Roscommon.

"The Other Crowd," "The Good People," "The Wee Folk," and "Them" are a few of the names given to the fairies by the people of Ireland. Honored for their gifts and feared for their wrath, the fairies remind us to respect the world we live in and the forces we cannot see. In these tales of fairy forts, fairy trees, ancient histories, and modern true-life encounters with The Other Crowd, Eddie Lenihan opens our eyes to this invisible world with the passion and bluntness of a seanchai, a true Irish storyteller.

Furedi finds a disturbingly deep conservative agenda stifling the experimental and new ideas around the studying of history...000B_
