Totalitarianism

The Origins of Totalitarianism, published in 1951, was Hannah Arendt's first major work, wherein she describes and analyzes Nazism and Stalinism as the major totalitarian political movements of the first half of the 20th century. The book is regularly listed as one of the best non-fiction books of the 20th century.

The Origins of Totalitarianism - Wikipedia

A terrific analysis of the evolution of totalitarianism in early 20th century Europe. Although at times pedantic, Ms Arendt traces the elements of politics, culture and economics which critically contributed to development of authoritarian states across Europe and, subsequently, the totalitarian regimes of Nazi Germany and Soviet Russia.

Online Library The Origins Of Totalitarianism

Antisemitism -- Imperialism -- Totalitarianism.

A political analysis of totalitarian societies, originally published in 1951, traces the nineteenth-century rise of anti-Semitism in central and western Europe and considers the institutions and operations of Nazi Germany and Stalinist Russia, examining such phenomena as the transformation of classes into masses, the applications of propaganda, and the use of terror.

This remarkable book has been foremost wherever the characteristics and problems of the twentieth century were discussed. Uncovering the roots of totalitarianism, Dr. Arendt

Online Library The Origins Of Totalitarianism

evokes the subterranean stream of nineteenth-century European history in which totalitarian elements first appeared, before the twentieth-century decline of the nation-state and the disintegration of class society brought about their crystallization into total domination resting on mass support. Beginning with a study of anti-semitism, and after presenting the Dreyfus Affair, she goes on to a study of imperialism and demonstrates how the interplay of racism, power-seeking, and economic developments generate autonomous processes that are limitless and aimless. The climax of the book is the last third, which deals with the institutions, organizations, and functioning of totalitarian movements and governments, with the attraction they exerted on the European masses as well as on the intellectual elite. -- Form publisher's description.

Online Library The Origins Of Totalitarianism

In the first volume of her landmark philosophical work, *The Origins of Totalitarianism*, the political theorist traces the rise of antisemitism in Europe. Since it was first published in 1951, *The Origins of Totalitarianism* has been recognized as the definitive philosophical account of the totalitarian mindset. A probing analysis of Nazism, Stalinism, and the "banality of evil", it remains one of the most referenced works in studies and discussions of totalitarian movements around the world. In this first volume, *Antisemitism*, Dr. Hannah Arendt traces the rise of antisemitism to Central and Western European Jewish history during the 19th century. With the appearance of the first political activity by antisemitic parties in the 1870s and 1880s, Arendt states, the machinery that led to the horrors of the Holocaust was set in motion. The Dreyfus Affair, in Arendt's view, was "a kind of dress rehearsal" the first modern use

of antisemitism as an instrument of public policy and of hysteria as a political weapon. "The most original and profound" therefore the most valuable "political theorist of our times." Dwight MacDonald, *The New Leader*

In the second volume of *The Origins of Totalitarianism*, the political theorist traces the decline of European colonialism and the outbreak of WWI. Since it was first published in 1951, *The Origins of Totalitarianism* has been recognized as the definitive philosophical account of the totalitarian mindset. A probing analysis of Nazism, Stalinism, and the "banality of evil", it remains one of the most referenced works in studies and discussions of totalitarian movements around the world. In this second volume, *Imperialism*, Dr. Hannah Arendt examines the cruel epoch of declining European

colonial imperialism from 1884 to the outbreak of the First World War. Through portraits of Disraeli, Cecil Rhodes, Gobineau, Proust, and T.E. Lawrence, Arendt illustrates how this era ended with the decline of the nation-state and the disintegration of Europe's class society. These two events, Arendt argues, generated totalitarianism, which in turn produced the Holocaust. "The most original and profound—therefore the most valuable—political theorist of our times."—Dwight MacDonald, *The New Leader*

The great twentieth-century political philosopher examines how Hitler and Stalin gained and maintained power, and the nature of totalitarian states. In the final volume of her classic work *The Origins of Totalitarianism*, Hannah Arendt focuses on the two genuine forms of the totalitarian state in modern history: the

Online Library The Origins Of Totalitarianism

dictatorships of Bolshevism after 1930 and of National Socialism after 1938. Identifying terror as the very essence of this form of government, she discusses the transformation of classes into masses and the use of propaganda in dealing with the nontotalitarian world—and in her brilliant concluding chapter, she analyzes the nature of isolation and loneliness as preconditions for total domination. “The most original and profound—therefore the most valuable—political theoretician of our times.” —Dwight Macdonald, *The New Leader*

Recently there has been an extraordinary international revival of interest in Hannah Arendt. She was extremely perceptive about the dark tendencies in contemporary life that continue to plague us. She developed a concept of politics and public freedom that serves as a

Online Library The Origins Of Totalitarianism

critical standard for judging what is wrong with politics today. Richard J. Bernstein argues that Arendt should be read today because her penetrating insights help us to think about both the darkness of our times and the sources of illumination. He explores her thinking about statelessness and refugees; the right to have rights; her critique of Zionism; the meaning of the banality of evil; the complex relations between truth, lying, power, and violence; the tradition of the revolutionary spirit; and the urgent need for each of us to assume responsibility for our political lives. This short and very readable book will be of great interest to anyone who wants to understand the forces that are shaping our world today.

In *The End of Economic Man*, long recognized as a cornerstone work, Peter F. Drucker explains and interprets fascism and Nazism as fundamental revolutions. In some ways, this book anticipated by more than a decade the existentialism that came to dominate the European political mood in the postwar period. Drucker provides a special addition to the massive literature on existentialism and

Online Library The Origins Of Totalitarianism

alienation since World War II. *The End of Economic Man* is a social and political effort to explain the subjective consequences of the social upheavals caused by warfare. Drucker concentrates on one specific historical event: the breakdown of the social and political structure of Europe which culminated in the rise of Nazi totalitarianism to mastery over Europe. He explains the tragedy of Europe as the loss of political faith, resulting from the political alienation of the European masses. *The End of Economic Man* is a book of great social import. It shows not only what might have helped the older generation avert the catastrophe of Nazism, but also how today's generation can prevent another such catastrophe. This work will be of special interest to political scientists, intellectual historians, and sociologists. The book was singled out for praise on both sides of the Atlantic, and is considered by the

Online Library The Origins Of Totalitarianism

author to be his most prescient effort in social theory.

Five leading thinkers on the concept of "rights" in an era of rightlessness Sixty years ago, the political theorist Hannah Arendt, an exiled Jew deprived of her German citizenship, observed that before people can enjoy any of the "inalienable" Rights of Man—before there can be any specific rights to education, work, voting, and so on—there must first be such a thing as "the right to have rights." The concept received little attention at the time, but in our age of mass deportations, Muslim bans, refugee crises, and extra-state war, the phrase has become the center of a crucial and lively debate. Here five leading thinkers from varied disciplines—including history, law, politics, and literary studies—discuss the critical basis of rights and the meaning of radical democratic politics today.
