The Archaeology of Difference presents a new and radically different perspective on the archaeology of cross-cultural contact and engagement. The authors move away from acculturation or domination and resistance and concentrate on interaction and negotiation by using a wide variety of case studies which take a crucially indigenous rather than colonial standpoint.

In Grace Bomb, Pastor Pat Linnell equips us to join a movement of simple obedience with world-changing impact. Grace Bombs are intentional acts of love prompted by the Holy Spirit—offering an extra tip to a hardworking server, giving up a seat on an airplane, or making a meal for the ER nurse next door. When we grace bomb our neighbors, our spouses, or strangers on the street, we are responding to God's call to love those people in generous and surprising ways. Drawing on rich examples from Scripture and everyday life, Grace Bomb shows us how we can: Go beyond cultural expectations of kindness Deepen our sensitivity to the Holy Spirit Overcome barriers such as fear, busyness, and prejudice Have fun while exercising our faith beyond Sundays Break the ice with our neighbors today With inspiring stories from people around the world who have discovered the joy of Grace Bombing, this energizing book helps you put your love into action right away. Most importantly, it helps you use that action to show others the true source of love with no strings attached: Jesus.

Henry Jenkins at Authors@Google (video) Henry Jenkins's pioneering work in the early 1990s promoted the idea that fans are among the most active, creative, critically engaged, and socially connected consumers of popular culture and that they represent the vanguard of a new relationship with mass media. Though marginal and largely invisible to the general public at the time, today, media producers and advertisers, not to mention researchers and fans, take for granted the idea that the success of a media franchise depends on fan investments and participation. Bringing together the highlights of a decade and a half of groundbreaking research into the cultural life of media consumers, Fans, Bloggers, and Gamers takes readers from Jenkins's progressive early work defending fan culture against those who would marginalize or stigmatize it, through to his more recent work, combating moral panic and defending Goths and gamers in the wake of the Columbine shootings. Starting with an interview on the current state of fan studies, this volume maps the core theoretical and methodological issues in Fan Studies. It goes on to chart the growth of participatory culture on the web, take up blogging as perhaps the most powerful illustration of how consumer participation impacts mainstream media, and debate the public policy implications surrounding participation and intellectual property.

A smart superhero book for girls with plenty of glitter—perfect for fans of The Powerpuff Girls. It all started with a mysterious purple goo... What happens when four best friends find themselves splattered with a bubbling, genetically altering substance during a seemingly innocent sleepover in a secret, see-through, high-tech, futuristic lab? They develop superpowers, that's what! Iris, Cheri, Scarlet, and sometimes Opaline have become . . . THE ULTRA VIOLETS After a super baddie face-off with the mutants in the Mall of No Returns, the girls know Chronic Prep is in peril... Bursting with glitter rainbows IRIS must keep her crazy artistic skills a secret. CHERI and her sweetie skunk Darth Odor smell something fishy and none of the math is adding up. High-kick, ninja cha-cha dance moves win SCARLET the lead role in the school play but even that isn't enough to distract her from the truth. And it's all because OPALINE is turning their classmates into real debbie downers. Can the Ultra Violets stop her evil plan before their friends' brains are French fried? Better find out soon because...THE FUCHSIA IS NOW!

This volume demonstrates that we should understand nascent Christianity and early Judaism as sharing to a large extent the same traditions. It throws fresh light on the Jewishness of the Two Ways teaching in Didache 1-6 as it presents a cautious reconstruction of the Jewish prototype of the Two Ways and traces the Jewish life situation in which the instruction could flourish.

This book explores the way in which the state has become commercialised under reform as party and government officials have gone into business and considers the impact that this has had on politics within Ho Chi Minh City and Hanoi. The book charts the way in which power has been decentralised to the lower levels of the party-state but argues that the central state retains significant power. These issues are explored through a variety of case studies including the implementation of different reform policies, struggles over political and business activity, and the prosecution of two major corruption cases. Particular emphasis is placed on piecing together the myriad of informal practices which dominate business and political life in Vietnam.
