Mental State Assessment · Psychiatry · OSCE Skills ...

Mental Status Examination. Department of Psychiatry and Behavioral Sciences. The Mental Status Exam is analogous to the physical exam: it is a series of observations and examinations at one point in time. Focused questions and observations can reveal "normal" or pathological findings. Although our observations occur in the context of an interview and may therefore be ordered differently for each patient, the report of our findings is ordered and "paints a picture" of a patient's appearance, ...

Mental Status Examination: Psychiatry and Behavioral ...

The mental state examination (MSE) is a structured way of observing and describing a patient's current state of mind, under the domains of appearance, attitude, behaviour, mood, affect, speech, thought process, thought content, perception, cognition, insight and judgement. The purpose of the MSE is to obtain a comprehensive cross-sectional description of the patient's mental state, which when combined with the biographical and historical information of the psychiatric history, allows the ...
