One of these teens is Brainiac 5, a highly intelligent descendant of Superman's arch foe, the original Brainiac. Like many people in the 31st Century, members of the Legion idolize Superman. They frequent the Superman Museum and marvel at tales of his past. A few of them even travel back in time to Clark Kent's teenage years. They recruit him to their team, thereby jumpstarting the adventures of Superboy, the Boy of Steel. In a future without precise records of the 21st Century, Brainiac 5 takes it upon himself to compile a tribute to his hero and friend. Collecting accounts from a myriad of sources, he compiles the universe's greatest historical record of the life and times of the Man of Steel.
