The distinguished Austrian psychiatrist examines the essential reality and significance of mankind's unconscious spirituality and awareness of the God within and the interrelationship between psychotherapy and theology

Sailing into New York Harbor, Sigmund Freud stood on the deck and gazed upon a statue that was meant to symbolize someone else's vague notion of freedom. The embryonic field of psychology--so very interested to hear this theory, which excavated the depths of the psyche--anticipated his arrival in America with lamentably eager fanfare. Whether out of hubris or prescience Freud could only whisper, "They don't realize we are bringing them the plague." It was a theory that undercut our creative justifications for every action and belief, and it suggested our anxious identities are charted by a big Other--one we cannot begin to comprehend. As psychoanalysis undergoes a resurgence of interest within religious studies, political theory, and cultural criticism, its innovative and peculiar claims remain difficult to grasp without any guide for the perplexed. In *God Is Unconscious: Psychoanalysis and Theology*, Tad DeLay explores the provocative teaching of psychoanalyst Jacques Lacan and its implications for Christianity. Partly an introductory exposition of Freud, Žižek, and Lacan, and partly an application of psychoanalysis to religion and politics, this book is organized as

Viktor Frankl, bestselling author of *Man's Search for Meaning*, explains the psychological tools that enabled him to survive the Holocaust. Viktor Frankl is known to millions as the author of *Man's Search for Meaning*, his harrowing Holocaust memoir. In this book, he goes more deeply into the ways of thinking that enabled him to survive imprisonment in a concentration camp and to find meaning in life in spite of all the odds. He expands upon his groundbreaking ideas and searches for answers about life, death, faith and suffering. Believing that there is much more to our existence than meets the eye, he says: 'No one will be able to make us believe that man is a sublimated animal once we can show that within him there is a repressed angel.' In *Man's Search for Ultimate Meaning*, Frankl explores our sometimes unconscious desire for inspiration or revelation. He explains how we can create meaning for ourselves and, ultimately, he reveals how life has more to offer us than we could ever imagine.

In this searching study, Fr. Murchadh Fr. Ó Madagáin describes the life and thoughts of Fr. Thomas Keating, the Trappist monk who was one of the founders of the centering prayer movement. Centering prayer aims to reclaim the Christian contemplative and mystical traditions after centuries of neglect and to make it available for modern spiritual seekers. Fr. Ó Madagáin traces its roots back to the fourth- and fifth-century Desert Fathers such as Evagrius and John Cassian. He shows how it was used in the medieval classic *The Cloud of Unknowing* and practiced by saints John of the Cross and Teresa of Avila, then revived by Thomas Merton during the twentieth century. Fr. Ó Madagáin illustrates how, by bringing the insights of contemporary psychology to bear on this ancient method of prayer, Fr.

Job, Jonah, and the Unconscious is the latest work by natural theologian M.A. Corey. It is a ground-breaking synthetic work utilizing the unique perspective of modern depth psychology to interpret the underlying meaning of two of the most fascinating books of the Old Testament, Job and Jonah. In the process it weaves together a unique development perspective on the age-old problem of evil that satisfies both the traditional theologian and the hard-core skeptic. It is able to do this by resorting to a concept of metaphysical necessity that is able to account for the temporary existence of evil in the world, while simultaneously preserving the omnipotence and omnibenevolence of God. The end result of this fascinating study is the elucidation of the cause of moral evil, along with the general defense of traditional monotheistic religion. In this thoughtful discussion of Blake's well-known Marriage of Heaven and Hell, Singer shows us that Blake was actually tapping into the collective unconscious and giving form and voice to primordial psychological energies, or archetypes, that he experienced in his inner and outer world. With clarity and wisdom, Singer examines the images and words in each plate of Blake's work, applying in her analysis the concepts that Jung brought forth in his psychological theories.
