From the internationally bestselling author of *The Wedding Officer* comes a novel whose stunning blend of exotic adventure and erotic passion will intoxicate every reader who tastes of its remarkable delights. When a woman gives a man coffee, it is a way of showing her desire. —Abyssinian proverb It was a cup of coffee that changed Robert Wallis's life—and a cup of very bad coffee at that. The impoverished poet is sitting in a London coffeehouse contemplating an uncertain future when he meets Samuel Pinker. The owner of Castle Coffee offers Wallace the very last

thing a struggling young artiste in fin de siècle England could possibly want: a job. But the job Wallis accepts—employing his palate and talent for words to compose a “vocabulary of coffee” based on its many subtle and elusive flavors—is only the beginning of an extraordinary adventure in which Wallis will experience the dizzying heights of desire and the excruciating pain of loss. As Wallis finds himself falling hopelessly in love with his coworker, Pinker’s spirited suffragette daughter Emily, both will discover that you cannot awaken one set of senses without affecting all the others. Their love is tested when Wallis is dispatched on a journey to North Africa in search of the legendary Arab mocca. As he travels to coffee’s fabled birthplace—and learns the

fiercely guarded secrets of the trade—Wallis meets Fikre, the defiant, seductive slave of a powerful coffee merchant, who serves him in the traditional Abyssinian coffee ceremony. And when Fikre dares to slip Wallis a single coffee bean, the mysteries of coffee and forbidden passion intermingle...and combine to change history and fate.

Apart ends, colonial rule has been introduced to Umuofia, and the character of the nation, its values, freedoms, religious and socio-political foundations have substantially and irrevocably been altered. Arrow of God, the second novel in Chinua Achebe's The African Trilogy, moves the historical narrative forward. This time, the action revolves around Ezeulu, the headstrong chief priest of the god Ulu, which is worshipped by the six villages of Umuaro. The novel is a meditation on the nature, uses, and responsibility of power and leadership. Ezeulu finds that his authority is increasingly under threat from rivals within his nation and functionaries of the newly established British colonial government. Yet he sees himself as untouchable. He is forced, with tragic consequences, to

reconcile conflicting impulses in his own nature—a need to serve the protecting deity of his Umuaro people; a desire to retain control over their religious observances; and a need to gain increased personal power by pushing his authority to the limits. He ultimately fails as he leads his people to their own destruction, and consequently, his personal tragedy arises. Arrow of God is an unforgettable portrayal of the loss of faith, and the downfall of a man in a society forever altered by colonialism.

Anthropologist boarding The off-reservation Indian boarding schools, was to "civilize" Indian children, which meant stripping them of their Native culture and giving them vocational training. This book offers the first full history of Sherman Indian School's 100-plus years, a history that reflects federal Indian education policy since the late nineteenth century.

EVER since the white race has been in power on the American continent it has regarded the Indian race—and by this I mean all the aboriginal people found here—as its inferiors in every regard. And little by little upon this hypothesis have grown up various sentiments and aphorisms which have so controlled the actions of men who never see below the surface of things, and who have no thought power of their own, that our national literature

has become impregnated with the fiendish conception that "the only good Indian is the dead Indian." The exploits of a certain class of scouts and Indian-hunters have been lauded in books without number, so that even schoolboys are found each year running away west, each with a belt of cartridges around his waist and a revolver in his hip pocket, for the purpose of hunting Indians. Good men and women, people of the highest character, are found to be possessed of an antipathy towards the Indian that is neither moral nor christian. Men of the highest integrity in ordinary affairs will argue forcefully and with an apparent confidence in the justice of their plea that the Indian has no rights in this country that we are bound to respect. They are here merely on sufferance, and whatever the United

States government does them is pure and disinterested philanthropy, for which the Indian should be only grateful and humble. To me this is a damnable state of affairs. If prior possession entitles one to any right in land, then the Indian owns the land of the United States by prior right. The so-called argument that because the Indian is not wisely using the land, and that therefore he stands in the way of progress and must be removed, and further, that we, the people of the United States, are the providentially appointed instruments for that removal, is to me so sophistical, so manifestly insincere, so horribly cruel, that I have little patience either to listen or reply to it. If this be true, what about the vast holders of land whom our laws cherish and protect? Are they holding the land for useful and good

anthropologist helping on the cause of civilization” by their merciless and grasping control of the millions of acres they have generally so unlawfully and immorally secured? Thousands, nay millions, of acres are held by comparatively few men, without one thought for the common good. The only idea in the minds of these men is the selfish one: “What can I make out of it?” Let us be honest with ourselves and call things by their proper names in our treatment of the weaker race. If the Indian is in the way and we are determined to take his land from him, let us at least be manly enough to recognize ourselves as thieves and robbers, and do the act as the old barons of Europe used to do it, by force of arms, fairly and cheerfully: “You have these broad acres: I want them. I challenge you to hold them: to
