for operators looking to get certified or who need to re-certify but aren't interested in attending one of our classes. Study guide packets are available to purchase for those who would rather self-study. Study guides include the same textbook and practice tests/questions that we use in our standard classes.

Study Guides :: Crawford Custom Consulting

Operators are injured less frequently because of the physics of electricity and crane equipment design. If an event occurs, no current will flow through the operator as long as he/she stays on the crane. (With the operator on the crane, both the crane and the operator have the same voltage potential.)
