~~Transition and Economics: Politics, Markets, and Firms ...~~

It shows how research on transition contributes to our understanding of capitalism as an economic system and of the dynamics of large-scale institutional change. The book is divided into three parts. The first part looks at how large-scale reforms are decided dynamically through the political process.

A transition economy or transitional economy is an economy which is changing from a centrally planned economy to a market economy. Transition economies undergo a set of structural transformations intended to develop market-based institutions. These include economic liberalization, where prices are set by market forces rather than by a central planning organization. In addition to this trade barriers are removed, there is a push to privatize state-owned enterprises and resources, state and collec
