A padlock is a mundane object, designed to fulfil a specific – and secular – purpose. A contemporary custom has given padlocks new significance. This custom is ‘love-locking’, where padlocks are engraved with names and attached to bridges in declaration of romantic commitment. This custom became popular in the 2000s, and its dissemination was rapid, geographically unbound, and highly divisive, with love-locks emerging in locations as diverse as Paris and Taiwan; New York and Seoul; Melbourne and Moscow. This book explores the worldwide popularity of the love-lock as a ritual token of love and commitment by considering its history, symbolism, and heritage.

Machine Design is interdisciplinary and draws its matter from different subjects such as Thermodynamics, Fluid Mechanics, Production Engineering, Mathematics etc. to name a few. As such, this book serves as a databook for various subjects of Mechanical Engineering. It also acts as a supplement to our popular book, Design of Machine Elements. It’s a concise, updated data handbook that maps with the syllabi of all major universities and technical boards of India as well as professional examining bodies such as Institute of Engineers.
