Physics of Life. We use cutting-edge tools and intellectual concepts from the physical sciences to tackle challenging questions from the life sciences. Our research spans multiple length scales from quantum biology and individual molecules through to single-cell physics and the biophysics of cell populations and complex tissues.

Quantum physics is so pivotal in modern physics that some aspects of it will be studied in at all three levels of study in the BSc (Hons) Physics course. This level 4 module will introduce the problems with classical physics and the need for a paradigm change, how this was made through the concept of a wavefunction and its associated Schrödinger equation.
