Here's an excellent resource to enhance history and civics programs by introducing and exploring national, state, and local elections. Developed for Grades 3-5, Elections will expose students to primary sources and promote critical-thinking skills. Students will enjoy the opportunity to run a simulated election in the classroom and participate in interactive opportunities through discussions, and extension activities. Flexible, self-standing lessons allow students to study specific parts of the process, and differentiation ideas are provided within the lessons to challenge students at their individual thinking levels. The included Teacher Resource CD features primary sources and student reproducibles. This resource is aligned to the interdisciplinary themes from the Partnership for 21st Century Skills.

The Road to the White House: Electing the American President

This book constitutes the thoroughly refereed post-proceedings of the satellite events of the10th International Conference on the Semantic Web, ESWC 2013, held in Montpellier, France, in May 2013. The volume contains 44 papers describing the posters and demonstrations, 10 best workshop papers selected from various submissions and four papers of the AI Mashup Challenge. The papers cover various aspects on the Semantic Web.

'A gem of a book, with clear and insightful explanations of ideological positions with informed and thought-provoking case studies. Goodwin cleverly interweaves real-world examples and the influence of key thinkers in a discursive dialogue with the reader to ensure conceptual ideas are retained without losing any of the academic rigour. The format of this book is particularly useful for tutorial discussions on political theory or politics in practice.' –Jonathan Kirkup, Politics Lecturer, Cardiff University 'Comprehensive, and covers the main ideologies in an interesting way . . . takes a critical and engaging perspective . . . framed in the context of debates around the meaning and purpose of theoretical enquiry . . . a more rewarding read than its competitors.' –Madeleine Davis, Department of Politics, Queen Mary, University of London 'This book is pitched at a good level for bright and interested undergraduates . . . the combination of ideologies and concepts in one book is a major selling point.' –Paul Taggart, Professor of Politics, University of Sussex 'It's great to see another edition of this excellent text book which gets to the heart of matters in a direct and student-friendly way.' –Mark Donovan, Senior Lecturer in Politics, Cardiff University Using Political Ideas is a unique blend of political philosophy, political theory and history of political thought. It combines a critique of the major ideologies of recent and contemporary society with an analysis of the ideas that form the very stuff of political debate. By exposing the interplay between ideas and ideologies, it shows why political opponents often speak at cross-purposes and why rational agreement is so hard to achieve in politics. The sixth edition of this well-respected and widely known text will be welcomed by those interested in questions such as: Is equality more important than personal freedom?

Does the majority have the right to dictate to the minority in multicultural society? Is nationalism a progressive force in the world? Politics does not stand still, there are always new controversies and ideological conflicts and the climate of discussion changes. The sixth edition of this best-selling book is fully updated and includes a new chapter on authoritarian ideologies to reflect the growing extreme right-wing politics in parts of Europe. This edition also provides a variety of new learning features, a comprehensive glossary, detailed lists of further reading and a list of questions for discussion.

Pro-Family Politics and Fringe Parties in Canada explores the organizational and ideological nature of political parties that are initially formed to do the work of social movements. Specifically, it examines the development of the Family Coalition Party of British Columbia (FCP) from its origins as a group of alienated Social Credit Party members to its rebirth as the Unity Party of British Columbia, and through its struggles as a marginal political entity along the way. While addressing the FCP's relationship to the larger North American pro-family movement, Chris MacKenzie also deftly demonstrates how the party can be seen as organizationally congruent with its ideological antithesis, the Green Party. Basing his findings on seven years of field research, he identifies the obstacles that political parties involved in social movement work must overcome in order for them to achieve their goals. He concludes that, despite their invaluable contribution to democracy, such party / movements have limited political institutionalization. Consequently, their only realistic goal may be to merge their ideals with those of another, larger political body. This book makes a substantial contribution to our understanding of the genesis, development, and impact of political party / movements in Canada. Moreover, it provides useful insight into the dynamics and issues that make up the current pro-family movements in Canada and the United States.
