The Yamaha Cygnus is a premium learner friendly scooter and is powered by an air cooled 125 cc single cylinder four stroke engine, producing 10.7 bhp at 8,500 rpm and maximum torque at 7,500 rpm. Features include:

Sarah is like any other woman with hopes and dreams until an accident takes away her husband but leaves her with a disability. Trying to live life the best she can, she picks up the pieces and start over. Her existence becomes a little less mundane when two men enter her sights during different stages of her life. One a man of mystery who waltzes in and out of her life but stays in her heart. The second from fiction-come-reality who doesn't hide his feelings for her but could mean the death of her. Both vastly different yet both predators and she is attracted to both. However, each of the men bring their own challenges into her life and to her beliefs. If she survives those challenges, whom will she choose as each, in their own ways, bring changes in degrees?

Do you harbour a secret longing to ride a motorbike? Do you wonder whether it's too late to try? In his book, "The road Less Travelled", Mike shares his experiences, as a sixty year old, gaining his motorcycle licence and entering the world of bikes and scooters. Through his chatty humour you will share his ups and downs while gaining his road skills. At the same time the various steps towards a full licence are explained in the hope that his story may encourage other "baby boomers" to take the plunge and enjoy motorbike riding.
