THE CLASSIC NATIONAL BESTSELLER "A wonderful, splendid book—a book that should be read by every American, student or otherwise, who wants to understand his country, its true history, and its hope for the future." —Howard Fast Historian Howard Zinn's *A People's History of the United States* chronicles American history from the bottom up, throwing out the official narrative taught in schools—with its emphasis on great men in high places—to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, it is the only volume to tell America's story from the point of view of—and in the words of—America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As Zinn shows, many of our country's greatest battles—the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality—were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States* features insightful analysis of the most important events in our history. This edition also includes an introduction by Anthony Arnove, who wrote, directed, and produced *The People Speak* with Zinn and who coauthored, with Zinn, *Voices of a People's History of the United States*.

For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. A Patriot's History of the United States corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.

In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be compelling reading for undergraduate and post-graduate students and scholars in American social history and American studies, as well as the general reader.

New York Times bestseller *A People's History of the United States*, this set of essays recounts the history of American labor, free and not free, in the years leading up to and during the Civil War. He offers an alternative yet necessary account of that terrible nation-defining epoch.

A noted historian and navigator relates the story of the accomplished seaman who sailed west to the New World

One of the most popular alternative histories of America is *A People's History of the United States* by Howard Zinn. Originally published in 1980, this new left textbook, which looks at American history from below-i.e., from the perspective of the disenfranchised and marginalized-has sold one million copies. This magnum opus is just one of the fifteen books that Howard Zinn has contributed over more than five decades, and at age 80 he continues to write and remains very actively engaged as a historian, activist, and enthusiastic proponent of radical social reform. For those who value the diversity of American voices and appreciate the importance of radically different viewpoints outside the mainstream, Howard Zinn is a national treasure. This first-ever biography of Zinn traces in broad strokes the story of his life, placing special emphasis on his involvement in both the Civil Rights movement and the Viet Nam War protests. Besides discussing the major shaping events of his life, biographer and historian Davis Joyce summarizes each of Zinn's books within the context of his life, analyzes the evolution of Zinn's ideas, and concludes with a preliminary assessment of his life's work. Joyce argues that Zinn's views are radical because they seek to bring about fundamental change in the political, social, and economic order. No armchair historian, Zinn has spent his whole life working for change, and he firmly believes that the American system needs to change radically to realize its own ideals. In a crucial

passage from *A People's History*, Zinn boldly declares his agenda: I prefer to try to tell the story of the discovery of America from the viewpoint of the Arawaks, of the Constitution from the standpoint of the slaves, of Andrew Jackson as seen by the Cherokees ... of the rise of industrialism as seen by the young women in the Lowell textile mills. ... Though some would label Zinn's positions anti-American, Joyce contends that Zinn's approach is rooted in the very ideals upon which the United States was founded, especially as embodied in the Declaration of Independence. His life has been motivated by the vision of what America could be, as opposed to what it actually is, and has been dedicated to the struggle to make that vision a reality. Joyce also considers how Zinn fits into the new left, radical school of historical writing of the 1960s and beyond. For anyone who has ever been moved by Howard Zinn's unique vision of a better, more inclusive, and egalitarian American future, this biography will be an indispensable resource. Davis D. Joyce, Ph. D. (Spavinaw, OK) has taught at the University of Tulsa, Keele University (England), and the University of Debrecen (Hungary). He is Professor Emeritus of History at East Central University (Ada, Oklahoma), and teaches part-time at Rogers State University (Claremore, Oklahoma). Some of his earlier books are *Edward Channing and the Great Work: The Writing of American History* (with Michael Kraus) and *An Oklahoma I Had Never Seen Before: Alternative Views of Oklahoma History* (editor).

Instant #1 New York Times bestseller. "The Atlantic writer drafts a history of slavery in this country unlike anything you've read before" (Entertainment Weekly). Beginning in his hometown of New Orleans, Clint Smith leads the reader on an unforgettable tour of monuments and landmarks—those that are honest about the past and those that are not—that offer an intergenerational story of how slavery has been central in shaping our nation's collective history, and ourselves. It is the story of the Monticello

Plantation in Virginia, the estate where Thomas Jefferson wrote letters espousing the urgent need for liberty while enslaving more than four hundred people. It is the story of the Whitney Plantation, one of the only former plantations devoted to preserving the experience of the enslaved people whose lives and work sustained it. It is the story of Angola, a former plantation turned maximum-security prison in Louisiana that is filled with Black men who work across the 18,000-acre land for virtually no pay. And it is the story of Blandford Cemetery, the final resting place of tens of thousands of Confederate soldiers. A deeply researched and transporting exploration of the legacy of slavery and its imprint on centuries of American history, *How the Word Is Passed* illustrates how some of our country's most essential stories are hidden in plain view—whether in places we might drive by on our way to work, holidays such as Juneteenth, or entire neighborhoods like downtown Manhattan, where the brutal history of the trade in enslaved men, women, and children has been deeply imprinted. Informed by scholarship and brought to life by the story of people living today, Smith's debut work of nonfiction is a landmark of reflection and insight that offers a new understanding of the hopeful role that memory and history can play in making sense of our country and how it has come to be.

Howard Zinn's *A People's History of the United States* has sold more than 2.5 million copies. It is pushed by Hollywood celebrities, defended by university professors who know better, and assigned in high school and college classrooms to teach students that American history is nothing more than a litany of oppression, slavery, and exploitation. Zinn's history is popular, but it is also massively wrong. Scholar Mary Grabar exposes just how wrong in her stunning new book *Debunking Howard Zinn*, which demolishes Zinn's Marxist talking points that now dominate American education. In *Debunking Howard Zinn*, you'll learn, contra Zinn: How Columbus was not a genocidal maniac, and was, in fact, a defender

If you care about America's past—and our future—you need this book.
